**"A SPECTACULAR RECORD."**

1878, - - - - - \$24,445,000  
1879, - - - - - \$36,900,000  
1880, - - - - - \$49,700,000

Grit Senators—Grit Commoners—and Grit Journalists are justifying the enormous increase of expenditure of \$12,800,000 over the last estimates of the Conservative Administration for 1897-7, on the ground that the Conservatives during their eight years of office, increased the expenditure of the country by \$12,455,000. The reader will see that the Liberal Government has in two years succeeded in increasing the annual expenditure by \$12,800,000, while the Conservative Government, during 18 years, did not accomplish so extravagant a task. In other words, the Conservative Government increased the expenditure by about \$692,000 per annum, while the Liberal Government has succeeded in two years, in running up the expenditure by \$6,400,000 per annum.

This is a very fair sample of Grit economy.

What has the country to show for the Conservative increase of expenditure? Let us see:

The Canadian Pacific railway has been built.

The Intercolonial has been extended from Riverview to Loup to Levis.

The short line to St. John has been provided.

About 10,000 miles of minor railway have been authorized and set in operation.

Steamship service on the Pacific has been established.

The North-West has been surveyed, opened up to settlement and given representative government.

Experimental farms have been established and cold storage introduced.

Increased allowances have been made for the militia, and permanent corps have been formed.

A telegraphic service has been extended on the St. Lawrence.

A fishery protection service has been provided.

Dry-docks have been built at Quebec, Esquimaux and Kingston.

The Welland canal deepening has been completed. The St. Lawrence canals have been deepened half way.

The Sault canal has been built.

A readjustment of the Provincial subsidies has been made, thereby adding materially to the annual expenditure.

Public buildings have been erected all over the Dominion and Harbours and Rivers dredged and improved.

These expenditures amount in part for the increased outlay of \$12,455,000.

The present Government has taken authority to spend more than \$10,700,000. What are we getting for this jump of \$12,800,000 in two years?

When addressing a public meeting in Toronto, in 1893, the then Mr. Laurier said:

"The Conservatives say to us, 'If you were to come to power you could not be able to decrease the expenditures and reduce economy.'"

"I do not believe that that would be a difficult task."

"It would not be difficult to economize one, two, or three millions."

Mr. Laurier declared to his constituents the other day that it would be quite possible to diminish the expenditures by four millions annually.

During the year to which Mr. Laurier was referring the expenditure was \$36,767,894, now in the second year of Mr. Laurier's reign he seeks to reduce the same to \$24,000,000 so that, instead of reducing the annual expenditures by \$4,000,000, he and his economical colleagues have increased that sum by \$12,800,000.

Liberals who looked for retrenchment, tell us how you like this "splendid record," which so delights the Globe!

**CANADA AND THE EMPIRE.**

Mr. James Van Sommer, jr., of Toronto, has published a short but very comprehensive work of 125 pages under the above title, which contains a fund of useful information of an authentic character and arranged with the skill of a master hand, on the subject of the part taken by Canada in the great and inspiring task of carrying out the wish of our Sovereign, of welding into one harmonious and united community the great Empire to which we belong. In a clearly written introduction, the author states that his volume contains a record of the part which has been taken toward the unification of the Empire by our Canadian leaders and by our representatives and delegates at the various Imperial Conferences and Commercial Conferences.

**Gained in Flesh**

And Feels Ten Years Younger Since Taking Hood's Sarsaparilla.

"I was very poor in health. My appetite was very poor, and my head ached. I read about Hood's Sarsaparilla and took three bottles. I gained in flesh and felt ten years younger." Mrs. O. W. HEATON, South Berston, Quebec.

during the past ten years. The contents include carefully prepared summaries of the International Conference of 1887; the Chamber of Commerce Congress of 1891; the Ottawa Conference of 1894; the various proposals for a Customs Union from the "Statist" magazine; the third Chamber of Commerce Congress, 1895; Parliamentary report on the "most favored nation" clauses in foreign treaties; Colonial Tariffs and Statistics of Shipping with the United States Respective clauses; Federation by Representation; and extracts from the speech of the honorable member, Mr. Hon. Sir Wilfrid Laurier, C.M.G., at Quebec on his return from the Jubilee celebration in England, August, 1897.

It will be gathered from the foregoing that Mr. Van Sommer has collected all the information bearing on the subject up to date. Indeed his work leaves nothing to learn on the subject, and its condensation of matters scattered through many publications and now gathered together in compact form, must render it invaluable to all who desire to understand thoroughly the great project of which it treats.

The book, which was printed in the INTELLIGENCER Job Department, is a creditable piece of work. It is enclosed in a red cloth cover, and was bound in the INTELLIGENCER bindery, the work done in which is a fine specimen.

Stars and Stripes Displayed to an Unprecedented Extent.

The Fourth of July Recognized Throughout the United Kingdom—Celebrated by Public Holiday Demonstrations at Niagara Falls, Ontario—The Royal Scots Made a Hit at Portland, Me.

The Day at Burlington, Vt.

London, July 4.—The fraternal sentiments evidenced here during the last few months finds vent to-day throughout the United Kingdom in an unprecedented display of the Stars and Stripes in honor of the Fourth of July, and in hearty expressions of good-will everywhere.

The afternoon papers are unanimous in applauding the splendid courage of the Americans before Santiago de Cuba, and in congratulating the United States upon the signal success of its arms both in the east and the west.

Small Mail Gazette: Those who have been drawing depressing conclusions from the earlier telegraphic reckoned with, and in congratulating the United States upon the signal success of its arms both in the east and the west.

The Westminister Gazette remarks: "Under the depressing circumstances suggested by the earlier despatches from Santiago de Cuba, our demonstration of friendliness would naturally have augmented rather than diminished, but to-day's message, indicating the splendid triumph of Admiral Sampson, has given a warmer tone to the expression of our friendly sentiments towards the people of the United States."

How the Fourth was Internationally Celebrated at Niagara Falls.

Niagara Falls, N.Y., July 4.—The Fourth of July was perhaps celebrated to-day at Niagara Falls, N.Y., as it has never before in the history of the United States. The day was marked by a large display of the Stars and Stripes and the Union Jack, which had the effect of bringing visitors from far and near to see the British and American flags and celebrate the glorious Fourth of July. The day's doings consisted of a monster parade, the Fire Department and societies in which the Fire Brigade from this town participated.

The Mayor, Council and Officials, both Niagara Falls, N.Y., and this place were also in the parade. The Union Jack and Stars and Stripes both waved together in the breeze and were carried to the echo by thousands of spectators that lined the streets all along the line. Mayor and Council declared that the day was a day of thousands of Canadians crossed the bridge and showed by their presence and loyal cheers their sympathy with the people of the United States in their struggle for Cuba's freedom. The stores, business places and homes were all decorated with the Stars and Stripes and no one within the gates of the Cataract City knew any other nationality but British and American nationality to-day.

The cheering of the multitude that thronged the streets rent the air for the welfare of these two great peoples. After the parade patriotic and appropriate speeches were made in Prospect Park by prominent Americans and Canadians.

During the evening a program of fireworks were set off over the rapids above the American Falls from Goat Island, which were witnessed by the British and American alike.

The Fourth of July celebration of 1898, on account of its uniqueness, will be long remembered by the people who witnessed it at Niagara Falls, N.Y.

A Hot Time at Halifax.

Halifax, N.S., July 4.—A number of American flags were displayed in Halifax to-day in honor of the Fourth of July. The American flag, the longest ever seen in the city, was hoisted on the tower of the Maritime Hotel. *C. H. Vermilyea*

At the station, long before the train came in, vast crowds blocked the way, and the Union Jack and the Canadian flag were hoisted in every place that could be decorated. The train arrived at 8 o'clock, and cheers rent the air as the Canadian mail pulled in. Awaiting them were Company M, Vermont National Guard, and Sherman's military band. The former acted as an escort, and the latter played the national anthem.

The feature of the day was a grand parade by the visitors, and they enjoyed the hospitalities.

**ALL HEADACHES**

Headache is a common ailment, and is caused by a variety of factors, such as overwork, indigestion, and exposure to cold. It is a distressing condition, and one that should be treated promptly. The best remedy for headache is Dr. Williams' Pink Pills. These pills are made of pure, natural ingredients, and are guaranteed to cure all types of headache. They are sold in every drug store, and can be obtained by mail for 25 cents per bottle.

**Dangers of Delay.**

If we were allowed to look in the future and see the fatal consequences that follow a neglect of the small, seemingly unimportant ailments, we would see that the most common ailments, such as colds, coughs, and sore throats, are the most dangerous. They are the first steps toward a more serious illness, and if not treated promptly, they can lead to a fatal outcome. It is therefore, of the utmost importance that we should take prompt action to cure these ailments. Dr. Williams' Pink Pills are the best remedy for all these ailments, and they are guaranteed to cure them in a short time.

**NOTES FROM THE CAPITAL.**

**Strike of the Section Men on the O. & P. S. R. Is Still On.**  
The Minister of Education has been making some changes in the Normal and Model Schools. Mr. Cape's Office has been reorganized. The Registrar at East Ottawa, and on Duty—Political Notes.

**Ontario, July 5.**—The strike of section men on the Ottawa & Parry Sound Railway and Canada Atlantic Railway is still on, but it is thought it will soon terminate.  
Mr. Cape's Office Abolished.  
The Minister of Education, with a view to the reorganization of the Normal and Model Schools here, has disposed of the services of Mr. R. B. Cape, clerk and drill instructor. Mr. W. G. Workman, music master, and Mr. McDougal, drawing master. Mr. Cape's office is abolished, and his clerical duties will in future be performed by the new drawing and the music master.

**Mr. Fleury, the French master, has been reappointed to his position.** The Normal School Miss M. C. Joyce has resigned. Miss M. Butterworth will take her place. Miss F. Hamilton will take the second book class, and a new primary teacher will be engaged to take charge of the first class of girls.  
Miss McNeill Received Cash.  
Last Friday was payday at Rockland, and the mill and sawmills were paid cash under the agreement made by Mr. Edwards to terminate the strike. Two weeks' wages, and the balance of the June 10 to be paid next Friday. It is said Mr. Edwards intends giving the men more than they asked for, as the books are arranged.

**Personal and General.**  
An Order in Council was signed yesterday by Lord Aberdeen, appointing E. R. Cameron of Meredith & Cameron, barrister, to be the new Registrar of the Supreme Court, in place of Robert Cassella, deceased. Mr. Cameron is in the city, and will take hold of his new duties at the end of the month.  
The State Department and Clerk of the Crown in Chancery are busy preparing for the prohibition, plebiscite. Although nothing has been decided as to the date of voting, it is not probable that the Government has decided not to hold any Dominion by-election until the fall. They will all take place on the same day and under the new law.

**Postal Conference.**  
Hon. Mr. Mulock's Stand for Penny Postage for the Empire Warmly Approved in British Press.  
London, July 5.—The postal conference is still proceeding at the Westminster Palace Hotel, but it is strictly private. Hon. Mr. Mulock's mission continues to excite much attention. To-day he will move in favor of a uniform penny postage for any one portion of the British Empire, and the first step is supported by Cape Colony and Natal.  
The attitude assumed by Hon. Mr. Mulock in the conference is that to an Imperial question of this kind, the Dominion Government will not allow the financial question to enter. It is enough for them to know that the lower rates of postage binds the Empire closer together. This attitude secures a warm approval in the press.

**GUILLEMAIN MURDER TRIAL.**  
Prisoner Had Plenty of Money and Said He Stole It From Barnum's Circus.  
St. Hyacinthe, Que., July 5.—The Guillemain trial resumed this morning. Judge Teller presided. Ladger Guillemain, of Biddeford, Me., said that he met Guillemain in Cassavant's restaurant on Nov. 11 last. There were also present Louis LaDouce, Napoleon Pleters and two other men. The accused handed the witness \$11 in Canadian bills for safekeeping. Ladouce, Pleters, Guillemain and himself afterwards started for the States. On the way they had a number of drinks. Guillemain also bought pipes and gloves. The witness made all the purchases, tendering a \$10 bill each time, and invariably returned the change to Guillemain. He had stolen the money from Barnum's circus in Montreal. He said he intended to return to Canada the following week for trial, and proposed taking \$300 expenses. Guillemain also expressed to the witness his intention to leave the balance of the money in Guillemain's hands during his absence in Canada.  
Judge Teller ordered the preliminary hearing taken at Biddeford last autumn to be read, recanting his decision as to its admissibility.  
Sheriff Nicotia, in his deposition of City Marshal Harmon and Constable Rodrigue, both declared that Guillemain freely confessed his guilt. They offered him no inducement, but he did force him to make admissions.

**FEARFUL HAVOC BY LIGHTNING.**  
An Awful Storm and Much Destruction in Prince Edward Island.  
Halifax, July 5.—A special from Charlottetown, P.E.I., says, during a thunderstorm, a fire broke out in the house of William Duffy, at Kelly's Cove, was struck and shattered. Two men, Thomas Monaghan and Owen Trainor, neighbors who were visiting Mr. Duffy, were killed instantly. Sitting between them was Miss Duffy, who was in the house at the time, received a severe shock. The storm in that portion of the island, as well as at Emerald, was terrible. The barn of James Mutch was struck and destroyed. Mrs. Mutch's father, a Mr. Clavish, was destroyed. The house of Allan A. Macdonald, at Peake's Station, was struck and badly damaged. The house of Christopher Bird, Cardigan, was struck and two boys injured. House at Blackley Point, was also damaged.

**AN INTERESTING LUNDSIDE.**  
Made Ties of Canadian Merchants to "Go On" Love Books.  
Montreal, July 5.—Some well-known Montreal wholesale dry-goods and millinery firms claim to have made the tools of an enterprising business. They are the London banks to the tune of several thousand pounds sterling. Among them are Messrs. J. & Co., and with them a host of other firms. The London Joint Stock Bank has done up \$48,000.

**Death of Mr. W. Ham Hall.**  
Markham, July 5.—The friends of W. Ham Hall of the village of Markham, with surprise and sorrow of his sudden death, which took place at Markham last evening. Mr. Hall was taken ill about a week ago with appendicitis. Mr. Hall has been proprietor of the Markham since 1880.

**HERE ARE THREE TESTIMONIALS FROM THOUSANDS:**  
**PLEURISY CURED IN ONE NIGHT**  
Belfast, Maine, U.S.A., Jan. 3, '98.  
Messrs. Griffiths & MacPherson Co., Vancouver, B.C.  
Dear Sirs,—I had been troubled with a painful attack of Pleurisy in my right side, not having slept for eight nights, so severe was the pain, and Mr. Griffiths' Menthol Liniment, a leading jeweller of this city, procured a bottle of your Menthol Liniment, and rubbed my side, resulting in entirely relieving me of pain within a few hours. I slept soundly all night and the pain has not troubled me since.  
Yours gratefully,  
THOMAS HAUGH,  
Certified by Chas. O'Connell.

**Union Mines, April 9th, 1897.**  
Messrs. Griffiths & MacPherson Co., Vancouver, B.C.  
Gentlemen,—My son, Samuel Bennie, got his leg crushed and bruised in the mines seven weeks ago. The swelling never fully left it until we tried your Menthol Liniment. On the first application the swelling disappeared and the muscles began to loosen up, so much so that the same evening he was able to use his foot for the first time. I consider it the best liniment known.  
DUNCAN BENNIE.

**The Best Remedy for Coughs and Colds**  
MR. CHAS. BENNETT, Cambric St., Vancouver, writes: "I do not believe Griffiths' Menthol Liniment has an equal for Coughs and Colds. My little children, aged 3 and 5 years, had a severe cough for some days, and coughed nearly all night. After using other remedies without success, we tried Griffiths' Menthol Liniment. We gave each 5 and 7 drops when going to bed, and rubbed their chests well with it; they did not cough during that night, and in less than two days with continued treatment they were altogether better. My wife says she would not be without it in the house under any circumstances."

**Sold by all Druggists. Price 25c and 75c.**

French Liner and British Sailing Ship in Collision-The Steamship Sunk.

Interesting Notes of the Journey.

With 600 Aboard-300 Saved.

Following are extracts from letters written by Mr. Stewart Wallace, son of Mr. Francis Wallace, to his relations here:

Halifax, N. S., July 6th.-The British ship Grosvenor, which was on her way to the west, is coming up the harbor with her bow stove in and partly dismantled.

I arrived here yesterday afternoon, after experiencing one of the hardest and most dangerous trips I ever had. After building our boat three of us started out to look a current that ran like a mill race. We had about 2000 lbs. but could not take it all in one load, so had to switch back, which was our progress slow. Moreover, we had to ward off a ice flow, besides having to line all the banks. Rowing, waiting and waiting for the boat to pull, was a question. After proceeding twelve miles from our camp, one of our party decided to leave the boat and swim ashore. This lightened our load 1500 lbs. or more, so my other partner and I tackled it together, with the firm belief that the river was far easier further ahead, which story is confirmed by men who claimed they knew the river like a book. Anyway this man and I succeeded about ten and a half miles above the point where the third man left, when we met with our first accident. After rowing the boat out beyond the light, we decided to cut wood for our boat in quick enough, as the current caught the boat and swept it under the log, and set my stove, cooking utensils, our dunnage, bag, are shoes, some oat and corn meal, rifle and ammunition, mining tools, writing paper and numerous small articles. Inside of half an hour I had an outfit proceeding up the river, coming within 17 miles of Glenora with them. They had such a heavy load they could not proceed further, so decided to cut wood for their steamers and come up later on, as I joined in with another outfit and we finally waded into Glenora Junction.

The only others saved were the purser and three engineers.

After bush whacking and working in water ever since the latter part of April, we had to line through canyons which had perpendicular walls from 100 to 200 feet high, and of course, the river being narrow, the water was very deep and swift. Steamers often had to wait for the water to fall before they could get through. A young man from Port Arthur, by the name of Mitchell, was drowned while making the attempt. The line knocked him off the cliff into the water. He was about 100 yards, when the undertow caught him and he disappeared. We hunted all day for him without success. Of course, working with line so high in the air we had to join forces, which meant to splice our ropes together, which meant to pull all the boats which had been cut by the water. This would mean a good many linings, as the first canyon was 2 1/2 miles long and the second about a mile. They are about 15 miles apart, but canyons were not our worst enemies. The rapids is where we had to fight our hardest and this river is full of them. I believe we ran the gamut of six or eight in the trips and in the forepart of the journey we often took slews to avoid ice cakes and on one occasion, after traveling for two days on one of the boats we had to portage about thirty miles and all over the snow until we reached the main river again.

### A BOOM FOR OUR NICKEL

New Invention in Smelting Which is of Great Importance in Canada.

The Sulphur to be Saved—Copper Also Separated, the Remaining Product Forms Best Nickel Steel.

There is every probability that the nickel mining industry of Ontario will before very long be developing into the proportion which has long been promised, but which for various reasons has been delayed.

Mr. R. A. Lyon, of Sault Ste. Marie, and Registrar for that district, formerly representing Algoma in the Local Legislature, is staying at the Walker House for a few days. From him I learned that preparations are being made for a large business at the new smelter, which has just been completed at Sault Ste. Marie.

The company which own this smelter is in possession of a new process for treating nickel ore, by the new process the cost has been reduced by more than half that it formerly cost.

By this treatment the sulphur and copper are separated and kept apart. Here to fore the sulphur has been destroyed, for the old process demanded such. Neither sulphur nor copper is saved. If the new system saves this sulphur and copper, a great advance will be made.

But by the new process the nickel and iron are left, and in such a form that a nickel steel can be made which is superior to anything yet put on the market.

TESTS HAVE BEEN MADE.

The company has made its tests, and is now in a position to make contracts. It is prepared to get out 100 tons a day.

Over \$200,000 has already been expended on the Canadian side in developing the water power of the Soo, of which the company has the monopoly.

Mr. Lyon is very enthusiastic over the new invention, and the chances for securing for Canada such a boom.—Toronto Star.

### OFF TO THE KLONDIKE.

Dr. Wills Leaves Again for the Ice North.

Dr. A. E. Wills, who returned from the Klondike some months ago, left this morning for Dawson City, where he will spend the next year or two of his life. He goes to look after the large interests which he possesses there.

The journey he claims at this season of the year is simply a pleasure excursion. He takes the palace train, the Rockaway, which is fairly sailed between New York and Newport, as far as St. Michael's and from thence he will take a very comfortable steamer up the river to Dawson City. He will sail on July 20th and will reach his destination about the middle of August.

### HUNTING FOR GOLD.

Experience of a Prospector in British Columbia.

Away from Civilization—The Mountain Regions—How the Prospector Lives—Estimating Distances—A Hunting Experience.

Following is a letter from Mr. G. F. Nicholson, formerly of the Intelligencer and lately of the Oshawa Vindicator:

Tom and I are lying in our little 6x7 tent listening to the patter of the raindrops on the canvas walls, while memory carries us back and away from these forest-clad mountains to the smiling fertile plains of good old Ohio and those we love. The contrast is most striking and yet so adaptable is man—at least such men as Tom and I are—to his surroundings, that it does not seem at all strange, but quite matter of fact. Here we are, out from civilization with only a blazed trail, which I made with my little hatchet, to connect us with the outer world. We came into camp yesterday, each carrying a pack of 35 pounds of provisions on our back. I do not take kindly to this packing business. The mule element in my nature does not manifest itself along that line, but it is an important part in the part we are playing and we cannot cut it out. We two are alone just now, our friend, Thomas, having gone to New Denver to do assessment work on a mineral claim and discharge his duties as a settler, for the provincial elections are held on the 15th. In his absence we continue the work. We are now operating in a district of magnificent timbers, principally cedars. These trees are not more than 3 feet at the base and lower upwards to a height of 200 feet. Where they flourish prospecting is the easy. The "sawing" of them is done by the undergrowth and only the monoliths stand, in the morning though, before the rain came on, we started for the summit of a mountain the side of which had been swept by fire some years ago and the growth was so dense that we had difficulty in making progress. We were encouraged in our efforts, though, by finding a "float" of very promising character. We have found the like before and followed it to the rock, in place only to find it a barren quartz ledge. It is here that the value of our compass is shown. The King's Son of Mining is right. We, each of us, feel that we got good value for our compass and a very poor quality of work. The law in this Province requires that \$100 be spent in improvement of each mineral claim annually or the claim reverts to the Crown. We have seen some claims which were utterly valueless, when development work had been done in the hope of making a mine. It would be vain to hope that, though, by finding a "float" of very promising character. We have found the like before and followed it to the rock, in place only to find it a barren quartz ledge. It is here that the value of our compass is shown. The King's Son of Mining is right. We, each of us, feel that we got good value for our compass and a very poor quality of work.

### THE WEATHER.

The nights have been remarkably cool, the temperature approaching closely to the frost line. On Saturday night it was 30 and last night it fell to 30. Comparison with last year:

### YESTERDAY'S PARADES.

The XV. at St. Thomas—The Orangemen at Bridge St.—Splendid Sermons—Large Musters—At the Other Churches.

The XV. Battalion held their annual church parade to St. Thomas' church yesterday morning. There was a very large turnout of officers and men. Rev. Canon Burke preached a splendid sermon, taking as his text: Jer. 17-18, "I cannot hold my peace because thou hast heard, O my soul, the sound of the trumpet, the alarm of war."

This was the old story of enemies raised up against sinners on account of their sins. The same is applicable at the present day—the papers are full of war and people are eagerly waiting for the latest news from some of the frontiers. We should not gloat over victories, for war is sent as a punishment for our sins. He felt that the whole of Europe might yet be embroiled in the present conflict. The saying is, "If you wish for peace, prepare for war." It is that the case our people should be prepared. We so often look only at the side of war and forget about the widow's sigh and the orphan's moan.

A good soldier was a good example for the Christian to copy, for his life also was a warfare. Paul always referred in the highest terms to the good soldier. The preacher dwelt upon the military virtues of watchfulness, unity, obedience and reverence, and exhorted the Christian to copy the soldier in all those qualities. By these only could victory be obtained in physical warfare, by these only could victory be obtained in spiritual warfare.

The time had passed when people thought that, to be a good soldier, it was necessary to be a very bad man. The army was not a school of vice. He expressed the opinion that if war should ever unfortunately come to Canada we would be ready to answer the call of duty. Canadian soldiers had already won glory and had received the place of honor at the Queen's Jubilee. In conclusion he exhorted the soldiers to obey the commands of the King of Kings, to follow Him unto the end.

At the conclusion of the service, the Battalion, headed by the Bicycle Corps and the two bands, returned to the Drill Hall by way of Bridge st. at 4 o'clock. The day being delightfully cool, the men thoroughly enjoyed the little tramp.

### THE ORANGEMEN.

The members of the Benjamin L.O.L., 274 and visiting brethren from the surrounding towns assembled in good force yesterday for the annual church parade, which was this year to Bridge st. Church. In addition to the officers of the local lodge, the following Grand Lodge officers were in the parade: M. W. Bro. Sir Mackenzie Bowl, Past Grand Master of the Sovereign Grand Lodge of British America, R. W. Bro. W. B. Brown, Past Grand Master of the Grand Lodge of Ontario East, and R. W. Bro. F. M. Clarke, Secretary of the Grand Lodge of Ontario West. Rev. Dr. Galtbraith preached the annual sermon, taking for his text, Matt. XVII-18, "And I say unto thee, that thou art Peter, and upon this rock I will build my church; and the gates of hell shall not prevail against it."

This might seem to be a peculiar text on which to base an Orange sermon, on account of the fact that it is upon this passage that the Roman Catholic church bases its doctrine of the papal viceregency. Roman Catholics maintain that Peter is the foundation of the church, that the popes of Rome are his lineal successors, and that they have the right to exercise authority over all followers of Christ. Protestants, on the other hand, maintain that Jesus Christ is the only foundation of the church and the source of all authority. That the latter is the correct construction to place upon the passage is proved by an examination of the original Greek. The word which is translated "Peter," and the word which is translated "rock," are entirely different in form, gender and signification. In the Old Testament scriptures the word "rock" is often used as a figurative expression of the power and strength of God, and it is in that sense which Christ here uses it. The literal meaning of the passage, therefore, is: "Your name signifies a stone, you recognize me as the rock of ages, and upon this rock I will build my church, and the gates of hell shall not prevail against it."

Let us look for a short time at the church. Historically, the church has the different stages in its character. First, when it is the true, living church of Christ, and contains a divine code of laws. It is called upon the pillar and the ground of truth. Second, when that divine institution, that God-founded and God-resembling church becomes degenerate. God departs from it and leaves it a mere human organization. The church may then be wealthy, influential, powerful, may possess a choir every day, may possess a minister with half a dozen degrees attached to his name, a man of powerful intellect and great ability, it may possess great wealth and great influence, but without God the gates of hell will prevail against it. Third, when it becomes so corrupt that it becomes a mere organization of men, rather than preserving it. Christ then describes it as "The synagogue of Satan."

The prospector then proceeded to describe the church. The church, he said, is derived from a compound Greek word signifying "called out of." The members of the church are therefore, a people called out and separated. They are called out from a sinful life, from a selfish life, from an empty life. They are called into a life of fellowship with God and Jesus Christ, into a life of service to a blessed expression, to a useful life, to an exalted and blessed hope.

The inevitability of the church was the next point dealt upon. History shows that the gates of hell have prevailed against the church, the mere human organization, the mere human organization. Hell prevailed against the patriarchal church, against the Hebrew church with its two branches, one the old law and the other the new law, the bloody Mohammedanism, and against the Christian church when it degenerated; but the church founded upon Jesus Christ, against the apostolic ideal church, the gates of hell have never prevailed.

"If you represent, as you profess to do, the principles of Protestant Christianity, and stand as the defenders of these principles, I tell you that this is the true Protestant religion. You are true Orangemen and true Protestants only so far as these principles are experienced and manifested in your lives. This is the ideal of a true church, a church filled with Christ and Christ-like lives."

On the return to the Lodge room, the following resolution was moved by R. W. Bro. F. M. Clarke, seconded by M. W. Bro. Sir Mackenzie Bowl, and carried unanimously: "Be it resolved, that the thanks of Benjamin L.O.L. No. 274, Belleville, and their visiting brethren be extended to the Rev. Dr. Galtbraith for the very able, patriotic, Protestant and Christian sermon delivered by him in Bridge St. Methodist Church, on Sunday, July 10th, 1898, to the Orangemen on the occasion of their annual church parade."

# IT IS NOBODY'S BUSINESS BUT OURS

The Tenor of British Columbia General Election Returns.

On Sunday Night It Looked as if the result of the election would be a surprise. The tenor of the returns was such that the result was a surprise.

Toronto, July 11.—The British Columbia election took place on Saturday and from the very incomplete reports received it is impossible to state definitely which party has won. Mr. Joseph Martin has been elected in Vancouver, with three Opposition seats. The city of Victoria has returned Premier Turner, Messrs. Hume and Hall for the Government and Mr. Gregory, Opposition. Westminster elects one Government supporter and Nanaimo one Oppositionist. In fact, the result is not yet known and in North Yale, Dean, Opposition, is elected. Roseland returns Martin, an Oppositionist, while South Victoria has elected Mr. Roberts, a Government supporter. From the last account it appears that neither party has a working majority. There are 38 seats in the Assembly and the figures it looks like 18 Government supporters and 17 Oppositionists elected, with one seat held by a third party. Premier Turner was defeated in Chilliwack, but will be returned in Victoria, for which place he also stood. It is impossible to prepare a tabulated list from the reports received.

## SUNDAY EVENING REPORT.

Vancouver, B.C., July 9.—At midnight the general election result was as follows, as far as known: The following seats have gone Government: Coquitlam, Courtenay, Lillooet, Kootenay East (north riding), Lillooet West, Nanaimo North, New Westminster City, Victoria South, Victoria City (S), Victoria North, Westminster, Dewdney, Yale (east riding)—15.

The following seats have gone Opposition: Alberni, Cariboo (S), Kootenay (Revelstoke), Kootenay (Slokan), Kootenay (Nelson), Kootenay (Revelstoke), Nanaimo City, Nanaimo South, Vancouver City (S), Westminster (Chilliwack), Westminster (Chilliwack), Westminster (Richmond), Yale West—17.

Places uncertain: Victoria City (North), Yale, East Kootenay (north riding), and Lillooet East. Various two seats will be contested later. Total 6.

## SUNDAY EVENING REPORT.

Vancouver, B.C., July 10.—The final result of the general election in British Columbia is not yet known, but returns are so far in that it is shown that neither the Government nor the Opposition has secured a working majority.

Several up-country seats are still uncertain, as outlying districts have still to be heard from. In the most favorable circumstances it is impossible for the Government to have a majority of more than four, while the Opposition has 38 seats in the majority of two or perhaps three. The House has passed the election law, the history of the province. The Government, which is now uncertain of its loss of power, had a majority of nine in the last House of 33 members. The House just elected consists of 38 members, and as 18 is the absolute majority, the Government can secure it. It is only on Vancouver Island that the Government has retained power, and on nearly all the rest of the mainland, Opposition candidates have been elected. There are two independent candidates in the mainland who during the campaign adopted practically the Opposition platform, but the Government will be sure to make strenuous efforts to secure votes, even if it goes the length of offering one a seat in the Cabinet.

## AN INCENDIARY CAUGHT.

Austin Smith, St. Catharines, Accused of Burning His Aunt's Barn.

St. Catharines, Ont., July 11.—Austin Smith, son of Mrs. John Smith of the Western Hill, pleaded guilty to arson in trial for two separate charges of arson and theft. On Friday night he stole a horse from Voltaire & Sons, barn, and thinking it was a tramp, called a neighbor, who investigated, and discovered that the horse was his. The horse was found in the barn, had been set on fire. Fortunately the night was wet or the fire would have communicated to the barn.

## BLAZE AT COLBORNE.

Many Business Places Destroyed Saturday.

Colborne, Ont., July 11.—About 2 o'clock Saturday morning the fire broke out in the drapery department of the J. S. Smith & Co. It rapidly spread to the lower story, and soon the whole block was a mass of flames. The adjoining office, occupied by J. S. Smith, was also destroyed. The fire was caused by a gas lamp, and the fire was caused by a gas lamp, and the fire was caused by a gas lamp.

## THE FAST LINE.

Not long after Sir Wilfrid came into power, he addressed the members of the Toronto Board of Trade at a banquet in Toronto, during which, he, after informing his hearers that his Government had annulled the extra tariff bargain which his predecessors had made, grandiloquently flourished what purported to be a telegram with the declaration: "I have a telegram from my friend and colleague Mr. Fielding, the Finance Minister, to this effect: 'The Government has decided to annul the extra tariff bargain which his predecessors had made, and to reduce the tariff on Canadian goods to the same rate as on foreign goods.'"

## NEWS IN A NUTSHELL.

Paragraphs in Toronto that will keep readers in touch with current events.

The annual convention of the Baptist Young People's Union of America will be held at Buffalo July 14 to 17.

English capitalists are seeking a controlling interest in the New Westminster & Burrard Inlet Telephone Company.

The Grand Trunk Railway has just placed 20 new coaches on the 1000 mile line. The new coaches are veritable palaces of wheels.

The Haver, Surgeons and their friends visited Muskoka on Saturday. They were delighted, and say the U.S. has been the best of the world.

Belleville will arbitrate as to the purchase of the water works. The company asks \$200,000, and Mr. Chipman of Toronto valued the system at \$100,000.

Carlton County General Protestant Hospital directors have decided to remove the present medical superintendent, Dr. Chipman, who will be replaced by a medical superintendent and assistant at \$10,000 per annum.

By the capturing of a cat boat in Portland harbor Saturday afternoon, five lives were lost. The boat was the O'Donnell, 56 years old; Charles Sullivan, 19; James Macaulay of Bona, 16; William Mitchell, 17; Edward Yarr, 16.

The acreage of wheat grown in Michigan this year is approximately 7,100,000 acres. The yield per acre in the state is estimated at 16.74 bushels. This estimate points to a crop of about twenty-eight and a half million bushels.

# PAK HALL

We are right into it this season and in the best of shape for supplying the proper clothing for wheelmen. We are making a specialty of this part of our business and we carry the suits, odd pants, stockings, belts, sweaters and caps. Our prices you will find the cheapest in the city. We submit you a few of our lines with prices and ask for an inspection of the goods. We don't deary other merchants, but simply lead the procession.

Suits. A special line of imported suits, made in the regular way, buckle bottom pants, double seat, only \$3.00. A nice grey mixture, double seated pants, a splendid good fitting line and a good wear, only \$3.50. A good suit, made of brown mixed tweed. This line is sold all over at \$5.00, price \$4.00. A well up-to-date line, the pockets are all buttoned on, both coat and pants, every pocket is stayer, every seam is faced, the pants are double seated and made with the patent golf bottom, only \$5.00. A very well cut made both in Norfolk and regular sack. All the latest improvements, a big variety of patterns \$7.00.

## Stockings.

We have all the correct things in socks and stockings with or without feet and both for boys and men. It is hard to give a proper description of this line of goods in an advertisement. Will you kindly see what we are offering, 75c and \$1.00. Our lines at 50 cts. are said to be the finest in town and we have a big variety to select from and all the sizes.

## Caps.

To properly complete your outfit you must have a cap. Some men think that to get the right kind of a cap it is necessary to go to a hat store. This is a mistake. We won't pretend to say they have the best caps, but we think prices count. We have the styles and the prices.

## SWEATERS.

A nice line of boys' all wool sweaters 20, 28 and 30, only \$5.00. A lot of good sweaters, all sizes for boys, only \$2.50. A nice line in men's sizes, all wool, different colors \$7.50. A special line of splendid all wool, different colors, always sold at \$12.25, our price \$1.00. A line just like the cut, the make of which is perfect. These sweaters are designed for either cold or warm weather, and afford solid comfort as well as elegance, only \$1.50.

## Belts.

One necessary thing is a nice belt. There is only one right kind, and that is leather with rings on each side. These are usually sold at 60 cts, in fact they are being offered at this price in different stores now. We have them in two different colors and our price is just \$2.50.

## IN CONCLUSION,

We claim, without fear of contradiction, that the only complete stock in bicycle clothing in Belleville is at our store. You may find spatterings here and there, but we have a complete stock of every particular. Don't go to blind. Compare our prices with those of any clothing store in town. Our latch string is always out, but no one will tease you to buy if you come in.

just discovered a plot. Two men arrived this morning, and they proposed to blow up the prisoners' brains." This letter is believed to be a practical joke.

## BRITISH STEAMER ASHORE.

The Parklands Steamer A Hole in Her Foreward and Had to Be Heached.

Halifax, N.S., July 11.—A special from Parklands, Nova Scotia, says that the steamer Parklands, Captain Carry, from Boston for this port to load deals for the Dominion, went ashore yesterday morning and stuck fast on the beach. The steamer was stuck on the beach, and the crew was unable to get her off. The steamer was stuck on the beach, and the crew was unable to get her off.

## A STARTLING TALE.

May Yet More to Be Told About the Jamieson Raid.

New York, July 11.—The London correspondent of the Evening Post cables the following: "There is yet a startling tale to be told of the Jamieson raid, if the little group of men who know of it ever receive sufficient inducement to tell. This week another little corner of the veil has been drawn aside by a report of the House of Commons Committee on Public Accounts. The report covers the surprising information that the British officers taking part in the raid, though struck off the army list, have been awarded substantial allowances, namely \$1,500 annually of retired pay to Colonel Rhodes, and gratuity of \$5,000 to Capt. William Van Horn. Captain Rhodes drew \$5,000 to Major White, and \$5,000 to Major White. These figures provoked a heated lecture between the Commons Committee and the Ministry."

## GUILLEMIN FOUND GUILTY.

Notice of Appeal—An Anonymous Letter Threatening Prisoner's Life.

St. Hyacinthe, Que., July 11.—The Guillemin trial was concluded Saturday evening, the jury returning a verdict of guilty. Guillemin will not be sentenced until after the argument on the points raised by his counsel, notice of appeal having been given. Half reclining on a pillow, he listened to the addresses of counsel, and then the judge's charge, which was, on the whole, rather favorable to the accused.

## JULY.

"The glowing July shall adorn  
Those who in warm July are born  
It will be their birthright  
Then will they be exempt and free  
From love's doubt and anxiety."

It is, no doubt, nice to be free from such doubts and anxieties, but we imagine many physical ailments still more distressing. Take eye troubles, for instance; people suffering with their eyes that is thought. Oftentimes it is because they haven't the right kind of glasses. Just as well have the right as the wrong kind. They cost no more. Examination free.

## WEIGH IN MATTERS

Were Discussed by the City Fathers Last Night.

The Waterworks—The Bay Bridge—The Mayor's Message.

At last night's meeting of the City Council the following were present: The Mayor, Ald. Falkner, Doyle, Chisholm, Humberford, Denmark, Stirling, McCann, Lott, Wallace, Pantor, Grills, Poley, Naylor, Harris, Finnegan, Lennox, Laloch, Bogart and Clarke.

The report of Willis Chapman C. E. on the water works was read. He placed a value of \$100,000 on the works, and the allowance according to statute would therefore be \$10,000, which, together with the \$90,000, would bring the total to nearly \$100,000.

Communications were read from C. O. Brown, Secretary of the Bay Bridge Co., and from the Council of the proposed "Gathering of the Clans" issued from R. J. Graham thanking the Council for exemption granted him at last meeting; from City Clerk Henderson, of Ottawa, asking the Council to co-operate in a movement to secure improved legislation in regard to Corners' fees. These were referred to the Executive Committee.

A communication was read from the Waterworks Company offering to supply for the next year the water for the water at present supplied, at \$6,000 per annum, payable half-yearly. This was equal to \$5,600 for 165 hydrants. The Company to supply water from the schools and to the City Buildings, 1000 gallons per day to the Hospital and water for street cleaning as at present. S. G. Retalick wrote stating that he was getting out a booklet on Belleville and offering space in same to the Council at the rate of \$8 per page.

The Council went into Committee of the Whole on Reports. Ald. Falkner in the chair. The Executive Committee reported in regard to the request of the West Hastings Fair Association, the Council resolved to decline to intervene. The clause passed. The clause recommending that the Waterworks matter be left to arbitration, was also passed.

S. G. Retalick wrote stating that he was getting out a booklet on Belleville and offering space in same to the Council at the rate of \$8 per page.

bay bridge I sent the following communication to the Secretary of the County:

BELLEVILLE, July 5, 1898.  
U. E. THOMPSON, Esq., Sec. Treas. Bay of Quinte Bridge Co., Belleville.

DEAR SIR:—I have been instructed by the Executive Committee of the Bay of Quinte Bridge Co. in time to consider the matter of the application at Toronto of the mortgage for the immediate foreclosure of the mortgage, and to take such steps as they may deem proper in the premises.

In the public interest I think there should be public sale of the mortgage, and the mortgage of the City, which is a stockholder to the extent of \$25,000, I wish to see the mortgage proceedings take only the steps which will be necessary to the mortgage, and I protest against any consent being given to any other proceedings.

Yours faithfully,

(Signed) Wm. Johnson, Mayor.

In compliance with the above request a meeting of the Directors of the Bay of Quinte Bridge Co. was held on Saturday last, and a resolution was passed and carried that an extraordinary general meeting of the shareholders be called for Wednesday, July 27.

The announcement was made at the meeting that the mortgage of the City, which is a stockholder to the extent of \$25,000, I wish to see the mortgage proceedings take only the steps which will be necessary to the mortgage, and I protest against any consent being given to any other proceedings.

I commend this matter to your earnest consideration.

J. W. JOHNSON, Mayor.

COUNCIL CHAMBER, July 11, 1898.

The Mayor, in reference to the Bridge matter, said that Mr. Weese who represented the stock of the Township of Amherstburg, was present at Saturday's meeting. He seemed opposed to the idea of allowing the bridge to fall into the hands of private individuals and thought that, if possible the municipalities should retain control. The only way in which the city could ascertain what was being done was to instruct him to communicate with the Township, asking him to have a committee appointed by his Council to meet our Executive Committee.

Ald. Falkner reported on behalf of the special Committee on leasing the elevator, explaining the terms upon which the different tenders were willing to lease the property.

Report rose and reported progress. Ald. Stirling moved that the report of the Committee of the Whole be referred to the Committee of the Whole for reconsideration of the matter of the Waterworks.

Yes, Ald. Denmark, Doyle, Chisholm, Clark, Finnegan, Harris, Laloch, Lennox, Lott, McCann, Pantor, Poley, Wallace, 12.

Several enquiries as to the progress of public works were put to Ald. Harris. It was decided to have two old wells in Fort St. Vrain, and John St. Vrain, covered with flagstones. A letter was read from the Underwriters' Association giving the report of Inspector Howe, which was satisfactory.

and all the parties concerned fully responsible by mutual agreement. The inquiry was held in order to fix the responsibility for the disaster, especially as regards Capt. Henderson of the Community.

Capt. Henderson's sworn testimony shows that he did everything known to avert the collision. He did not know the Bourgeois had gone down until the first lifeboat alongside. Each lifeboat contained mostly seamen, all of whom were dressed, and none of them knew how to swim. They were in the water. The second boat had a nuncheon of food and some fresh meat for men. Capt. Henderson said the collision occurred about 180 miles from Halifax and 700 mi. from New York.

More than 10 minutes elapsed between the time he heard the Bourgeois's first whistle and the time of the collision. The captain stated that the Bourgeois

## BANK BILLS TRACED.

Detectives Unravel the Mystery of the Dominion Bank Robbery at Nanapanee.

The Methods of Circulation-Bills Sent From Manchester, N.H., to St. Hyacinthe Supplied the First Good Clue-Paris Now in Montreal.

(Montreal Star, July 14th.)

46,762, 46,326.

This is the combination that was used to unlock the barriers that have hitherto baffled the police in the Nanapanee bank robbery.

In other words, these are the numbers of the bank bills stolen on August 28, 1897, from the Dominion Bank at Nanapanee, which gave the officers of the law the first reliable clue, whereby to locate the bank-breakers and their accomplices.

And how skillfully that clue was followed was shown in the arrests made. Madame Saucier, alias Caroline Pare, is in the toils. Her brother, Edward Pare, is also a captive. Both these people are in Montreal, the woman having been brought here from St. Thomas de Montargy, where she was arrested; the man reaching here from Manchester, N.H., this morning. Brother and sister are in the cells in this city. The Star told yesterday in its special despatch from Boston of the arrest of William Henry Holden in that city, as one of the principals, and the direct associate of Edward Pare in the robbery at Nanapanee. Holden will be taken to Nanapanee for trial, and Pare will by that time be there to keep him company.

The fourth arrest was made in Belleville, which place is nearer the scene of the crime. Here, on Wednesday night, Superintendent Carpenter, of the Montreal detective force, and Assistant-Superintendent George S. Dougherty, of the Pinkerton agency, took in custody Robert Mackie, a young man well known in the place. He is charged with being connected with the affair, and the officers of the law have, they claim, evidence strong enough to warrant his detention under arrest. That makes four arrests in all. Are there others? That is the question of the hour in this case.

THE MISSING MYSTERY.

John Baptiste Edmonds, who lives near St. Hyacinthe, has relatives who work in Manchester, N.H. They send John Baptiste money, and these relatives send him good Canadian money, which he takes home. It was all good except the signature. That was forged. The money was part of the lot obtained by robbers from the Dominion Bank at Nanapanee last August. It was part of the \$10,000 in unsigned new Dominion Bank notes, included in the \$34,000 odd lifted from the bank vault. These new notes were numbered from 46,001 to 47,000. The notes which John Baptiste received were numbered 46,762 and 46,326. They were put in circulation about June 27, and reached the St. Hyacinthe branch of the Eastern Townships Bank on deposit. That bank had been the stolen bills numbered as above. They traced the bills back to the merchant making the deposit had received them from John Baptiste. Baptiste got the money from Manchester. The logical conclusion was that some one in Manchester was systematically disposing of the bills through the French-Canadian stores, where the habit of remitting money to Canada. That was proven to be a correct theory.

Meantime the Eastern Townships Bank notified the agency of the Dominion Bank in Montreal. It was only one of many similar notifications received. But it proved to be the one notification which led to a definite result, and advanced matters toward the detection of the criminals. Edward Pare's arrest followed, and through his detection the arrest of his sister, and Holden has ensued.

DETECTIVES GET RIGHT TO WORK.

The first of the new Dominion Bank bills with the forged signatures to be put in circulation first came to light about June 13 at Smith's Falls. Five days later O'Leary got a dose of the bills, less than a week Montreal merchants were the first to receive, for the bills were being circulated in this city. Where did this Ottawa and Smith's Falls bill come from? At that time they were in circulation the detectives did not know. For nearly a fortnight the aspect of the case was, therefore, mysterious. It is not until the bills were being circulated that they did come from Holden. But the St. Hyacinthe and Quebec bill did come from Pare and his sister. Quebec found that the bills were being circulated there by July 1. These were the bills traced to Caroline Pare.

When the notification came to the Dominion Bank in Montreal from the Eastern Townships Bank of St. Hyacinthe, Detective George Wilkes, of the Pinkerton Detective Agency, who has been connected with the case all through from the very beginning, was hunting for clues in connection with the Smith's Falls and Ottawa bills. He was right in Montreal. It was hard work to find out anything regarding the party or parties who were passing the counterfeit bills. The Ottawa bill was traced to the local bank pretty nearly all the bills. Notifications were sent to the bank to this effect from the Bank of Montreal, the Hochelaga Bank, the Banque Nationale, the Merchants Bank of Halifax, Molsons Bank and others. But nothing came of it.

But the St. Hyacinthe notification opened up a rich lead. Immediately it was learned that the money came from Manchester, N.H. The Pinkerton agency was notified, and sent men to Manchester, where it appears, Pare was in the act of transacting business with many of the French-Canadian, giving them Canadian currency for American money, when they wanted to remit to friends and relatives in Canada. It took the Pinkerton men five days to get Pare just where they wanted him. He was "shaken" last night. Finally Superintendent David C. Thornhill, the superintendent of the Pinkerton office at Boston, assisted by Police Superintendent O'Dowd of Manchester, got their man "just where they wanted him," and he was gathered in. The details of finding the money concealed in his trunk were told in yesterday's Star, and in this manner of his arrest was in this wise:

HOW PARE WAS GATHERED IN.

In the darkness of the early hours on last Saturday morning, shortly after midnight, Supt. O'Dowd, of Manchester, Police Officer J. R. Connor, Supt. Thornhill and Detective Adams started out. Edward Pare lived on Policeman Connor's beat at 44 Bridge street, and to this officer is given much credit for information obtained regarding the man.

The party reached the house and ascended the stairs to what was known to be the sleeping room of the criminal. It was in a narrow hallway, dark as pitch, and a most uncanny looking place. The officers knew that Pare was a desperate man, and all necessary precautions were taken. While Policeman Connor and the detectives fingered their revolvers, Jack O'Dowd placed his hand against the wall and planted his foot on the bedroom door close by the lock.

In less time than it takes to tell the tale the door was broken open. Policeman Connor flashed his bull's eye lantern on the bed and Jack landed upon Pare. The prisoner was quickly handcuffed and taken to the station. So quickly was the work carried out that he had no opportunity to put up a fight. Had he received an instant's warning of the approach of the officers there is not a particle of doubt in the minds of the men who know the crook that he would have shot.

On the following Tuesday Supt. of Detectives, Sias R. Carpenter, of Montreal, went to see Pare. He was accompanied by Mr. Peers Davidson, of this city, who appears as counsel for the bank at Nanapanee.

All day Tuesday, the officers worked on Pare, but he was obstinate. Even to this moment he maintains his innocence of the crime charged against him. He was at first disposed to stand upon his rights, and demand that extradition papers be secured before he would consent to return with the Canadian officers, but finally he consented to return, and reached Montreal this morning.

Pare will be taken to Nanapanee this afternoon.

SOME GOOD CARPENTER WORK.

To Superintendent Carpenter is to be given the credit of connecting Holden, the Boston arrest, with Pare. As has been stated in the Star, and as Mr. Carpenter himself knows, Pare "broke" with another. In Canada Pare and Holden had been hunted together. It was known that Pare had a "pal" in Nanapanee. Who so likely as Holden? Back from Manchester to Boston Superintendent Thornhill, and the results as revealed in the arrest of Holden show how correct the detective's surmise was in the possession of the detective and his connection with Pare at Nanapanee was made all the stronger by the fact that several people recognized it as the picture of a man who had been hanging about the scene of the robbery before and after it was committed.

Holden will be first brought to Montreal and then taken to Nanapanee, when he is extradited.

THE QUEBEC END OF IT.

There are some facts in connection with the arrest of Caroline Pare which have not hitherto been published. Her detention was initiated at St. Thomas de Montargy on July 7, while she was seated at breakfast at the hotel. With a quantity of the forged money she had left her brother at Manchester, N.H., some time previously, came to Montreal, scattered a quantity of the bills, and was not long in being traced to the hotel. She was put out enough money in Quebec about July 1 to put the banks and the merchants on their guard. ## THE DRINK BANK ROBBERY

Some Interesting Developments That Are Daily Growing.

A Woman and Three Men Implicated—The Arrest of Pare—A Strange Circumstance—The Robbery of a Money Bag Taken From the Dominion Bank a Year Ago—\$9,000 Recovered.

Naples, July 16.—The town of Naples is in a quiver of excitement owing to the latest developments in the Dominion Bank robbery case. Everybody is talking of it, in the streets, at the hotels, in the post-office, at the bank. The opinion is expressed that at last something tangible has been got onto.

The story runs back to two months before the bank was robbed, when lawyers of Belleville warned the bank authorities that an attempt to burglarize a bank through a side entrance, was in contemplation.

Soon after this episode some very suspicious characters were observed in and near the town, while several houses were broken into. These individuals were taken into custody and the woman was Mrs. Seymour, who lived at Mrs. Scott's, just opposite the bank house and street.

Dead Men Tell no Tales. But living women and hungry children do. They tell a sad tale sometimes, that brings the terrible cause of carelessness and neglect to provide, against the hand of Death and father whom the hand of Death has stricken. What a little thing a 5 cent piece is, yet a day will provide \$200 insurance for a man of average age in the

Canadian Order of Foresters. Twenty years ago there was some excuse for those who left their families unprotected, today there is absolutely none. The only question is safety, and in the Canadian Order of Foresters safety is a matter of fact. Dead Men Tell no Tales. But living women and hungry children do. They tell a sad tale sometimes, that brings the terrible cause of carelessness and neglect to provide, against the hand of Death and father whom the hand of Death has stricken.

Canadian Order of Foresters. Twenty years ago there was some excuse for those who left their families unprotected, today there is absolutely none. The only question is safety, and in the Canadian Order of Foresters safety is a matter of fact.

"because it looks like death." The person who is braving so loudly as to take away all thought of death because of some awe quite as easily as the silent sleeper who hardly seems to breathe.

We see death ahead, but were it more familiar we doubt if a corpse would inspire so much awe as the unconscious and sleeping figure—smiling, irresponsible, doll-flesh and blood, but a doll to whom in a second may be dealt a proud, active, conquering consciousness which will ride his bodily and his mental horse with a hand of iron which will force that body to endure dull and misery and will make that mind now wandering in paths of fantastic goal and great problems or shrouded by its force into the future, the saving or the destruction of mankind.

The soul is only quick, tense, muscular and tissue. The sleeping body is the house which a quick and eager master has only left for an instant.

Let any one who thinks sleep is not a mystery try to observe himself the procedure which sleep comes and to notice how and when and under what conditions he loses consciousness. He will, of course, testify to put his head on the pillow at the moment of sleep coming, but in striving to get up as close as he can to the phenomena of sleep, he will note how good is the mystery which he is trying to fathom.—St. Louis Republic.

**THIS INTERVIEW TELLS IT.**

A reporter called on the Rev. R. A. Bilkley, rector St. John's (Episcopal) Church, Downsview, Ontario, during a church function, and on congratulating him on the great change for the better in his appearance, the reverend gentleman said, "It is due entirely to Dr. Ward's Blood and Nerve Pills."

I suffered for over three years from extreme nervousness, weakness and prostration, and could not obtain relief. A few months ago I became only too aware that extreme nervous prostration had set in, as I lost flesh and appetite rapidly. Three of my four children, my pronounced me in urgent need of immediate and prolonged rest in order to build up my nervous system, giving me certificates to that effect. About this time, by pure accident, Dr. Ward's Blood and Nerve Pills were brought to my attention. I decided to try them, and on doing so a decided change for the better took place at once. I have since continued taking the pills, with continued and marked benefit and improvement. My appetite has returned, my nerves gained firmness steadily, and my general health is now good. Further, I am glad to state that these results are due, to the action of Dr. Ward's Blood and Nerve Pills, and I have every confidence that they will do for others all that they have done for me."

(Dr. Ward and Nerve Pills are sold at 50c per box, by mail, in Canada, by J. C. Carter, Ltd., Toronto; and in U.S.A., by J. C. Carter, Ltd., Victoria, British Columbia. Book of Testimonials free.)

## JULY.

"The glowing Ruby should adorn  
the eye that is so lovely and rare;  
Then will they be exempt and free  
from the dust of the world and care."  
It is, no doubt, nice to be free from  
such doubts and anxieties, but for in-  
stance many physical ailments still more  
distressing. Take eye troubles, for in-  
stance; people suffer more with their  
eyes than they think. Oftentimes it is

## THE NAPANEE BANK ROBBERY

Despite Pare's Confession Young  
Ponton Is Popular.

Mr. E. Gus Porter, Counsel for the Ex-  
Teller, Not Allowed to See His Client  
—Answer to Application to Attorney-  
General Says He Will Be Admitted  
on Wednesday Before Preliminary  
Hearing.

Napane, Ont., July 19.—Feeling still  
runs high in Napane, and Ponton's  
friends are again rallying to his side and  
protesting his innocence. The detectives  
are keen to save their reputation and aid  
the bank with the approaching suit for  
damages caused by the robbery. They also  
say that if they can only convict Ponton  
the bank will be able to recover from the  
Guarantee Company the amount of Pon-  
ton's bond, said to be \$10,000.

a proceeding that is worthy only of a  
country in which the rights of a subject  
are unknown, and an insult to the people  
of Canada. Mr. Porter was compelled to  
return to Belleville without seeing his  
client, and to wait until the detectives  
get thoroughly satisfied.

Paré's Confession.  
The prisoners in the jail at present are  
W. H. Ponton, Ed. Pare and Robert  
Mackie. None of them wear prison garb,  
and all have their food sent in to them.  
All have money, and especially Pare, who  
has a large amount in the keeping of the  
jailer. At 7 a.m. the cells are opened,  
and the prisoners let out. The day hours  
are spent in reading and walking up and  
down the corridors, though no commu-  
nication among them is allowed.

Paré's Confession.

have rich material in his hands. In this  
confession, it is claimed—that coinciding  
with the detectives' theory—that Ponton  
gave out the combination of the safe,  
helped to count the swag in his room,  
and got his share, amounting to \$3,000.

whether Pare's confession was correct or  
not. The chief asked, however, that on  
Thursday last, after the arrest of Mackie,  
at Belleville, he, in consequence of certain  
information received, proceeded in com-  
pany with the Crown prosecutor of Napane,  
Chief of Police Adams, of Napane,  
and Superintendent Dougherty, of the  
Pinkerton Detective Agency, along the  
Grand Trunk Railway track at Napane.

Napane Bank Robbery.

noe to a spot about three-quarters of a  
mile east of that town, where they turned  
off of the track for some two hundred  
yards. Having come to a distance they  
discovered a hole in the ground, and  
eighteen inches in depth. In this  
hole they found part of a bag taken from  
the bank at the time of the robbery, as  
well as a tin box, also containing the  
money taken from the bank. There was  
nothing whatever in the box, but the  
discovery showed that the information  
they had received was absolutely correct.

Fire Near Shannonville.  
Fire started Sunday by a spark from one  
of the G. T. R. engines near Shannonville.  
The wind was blowing in a northerly  
direction and soon carried the flames over  
the buildings, which were consumed.  
Damage to the houses and pasture land,  
and spreading on up through to the last  
conclusion, destroying the weathered fence  
and also barn and contents belonging to  
Cornelius Murphy. The barn contained  
about ten tons of hay, also some farming  
implements. The loss is about \$2,000.  
Insurance about \$800.

### THE LATEST DEVELOPMENTS.

Napanees People Fully Absorbed in Bank Robbery Details.

They Doubt the Hon. Pides of the Pace Confession—Penton May Be Admitted to Hall Yet—Mr. E. G. Porter Admitted to See His Client—Another Small Robbery, That on the Dominion Bank Plan of Campaign.

Napanees, July 20.—So far as the sentiment of the town can be ascertained by conversations with leading citizens, it appears that some features last year's opinions are prevalent. Not a few citizens think that the detectives, instead of putting in every lot and title of fact for and against, are inventing a web that is to catch in its meshes the prisoner. Penton. The People Doubt Pace.

The people in town are not satisfied with the Pace confession of Prisoner Pace. Having regard to the fact that they are clamoring for some additional evidence of Penton's complicity. None is forthcoming from the police. The Crown authorities make statements that lead one to suspect that some very large developments are in the offing. One man remarked, "Why, we have evidence that will convict Penton over and over again." When the alleged dissembler comes they will have to be weighed or the Crown authorities will be ridiculed, so high a price has the people's expectation reached.

It is understood that when Penton is brought before Magistrate Daly, unless there is evidence that he received part of the stolen money, and strong corroborative evidence against him, the confession, the prisoner will be released on bail, which will be readily forthcoming.

Porter Sees His Client.  
1897.  
Mr. Porter, Penton's lawyer, will be admitted to-day to see his client. The authority came from the Deputy Attorney-General yesterday.

#### Rumors of Arrests.

The report was circulated like the news of a great night that two arrests had been made in Montreal, but no authoritative confirmation of this report has been received. The fact that Detective Dougherty returns to town at 2.30 a.m. today from Montreal, and that Mr. Porter had been allowed to see his client, seems to show that something important in the eyes of the police has been accomplished, but that they fear no "queering" of their game. It was also rumored that Mackie had made a confession yesterday afternoon, but the police are silent, and Mr. Wilson, Mackie's lawyer, is in no hurry arranging the details of his client's defense, and will not be back till Wednesday.

#### Another Burglary.

The bank robbery case is getting in its evil educative effects. It seems as if meditation upon the ways of the professional crackman has produced in the minds of some persons a desire to emulate their exploits. Yesterday afternoon, at the provision store of Casey Denison on Centre street was broken into and about \$60 worth of goods were stolen. An entrance was made through the north door of the store, by means of boring an auger hole large enough to admit a small hand. Then the single bolt that held the door was drawn back and the store was at the mercy of the depredators. Chief Adams has the case in hand, and is busy milking the store for the work of his friends, the detectives, he will do something to get it straightened out.

#### Attempt to Rescue Mackie.

Tramps in large numbers are known to be in the vicinity of Napanees. The County Treasurer's office has been milked by them, while private berry patches have been stripped by the prowlers. These facts have alarmed the police. It is thought that an attempt will be made to rescue Mackie, though no one expects that he would run away even if the very prison walls fell down.

#### As for Penton, outside of the police, not a dozen of the townsfolk think he is implicated at all, excepting as a necessary part of the chain of events in the original theory. Mackie is really the man who, as the previous legend, needs much guarding.

"More light is required in and about the jail," said Sheriff Hawley. Last night Sheriff Shaw was visited by Dr. Chamberlain, Inspector of Prisons, Toronto, and that two electric lights be placed beside each corridor. At present it is dark as Egypt round about the jail, and a man might raise a ladder up against the east wall and answer.

#### Only One Way of Rescue.

In the opinion of the guard the only way in which a prisoner could be got out would be by an outside party climbing up the outside wall, and creeping along the outside wall, and then getting into the corridors. Then it would be necessary to file a couple of bars and let the prisoner out. One free from the jail would be easy for the escape to a mile down a train going up the steep grade a mile down, "but that won't be done," significantly said the guard, as great precautions are taken by the guards during the night.

#### Evidence in the Holden Case.

Proceedings were taken yesterday in Boston, Mass. Constance Sills, plaintiff, identified Holden. She said she saw the tramps arrested on August 18, 1897, on a charge of vagrancy. She said that she was given two hours to get ready. Mr. Baines identified the money, coins and bills as stolen from her.

#### Constable Sills is Expected to Return to-day.

He may go to Montreal to identify Mrs. Seymour, who is expected to be brought before the magistrate for a preliminary examination, but he may be retained for a further period.

#### Many of the townsfolk daily go around the jail and carry on a sign conversation with prisoners.

Penton and Mackie are in good health, but Pace is still under the care of Surgeon Leonard.

#### Jailer Van Luven has had a dozen cartridges loaded with buckshot, with which he will open any attack upon the jail.

At 10.30 a.m. yesterday word was received that Lawyer Wilson has been permitted to visit his client, Mackie, commencing at 11 a.m. Mackie has not received word personally, as he is in Belleville.

#### Look to It.

Front st. is studded with holes big and deep, and are now dripping with rain. It is said that the holes were made by the military and ought to be levelled at once. The military are making a road to the intersection of Front and Bridge sts., to several crossings, and the end of the lower bridge.

#### No other preparation has ever done so many people so much good as Hot Sarsaparilla, America's Greatest Medicine.

### BANK BURGLARY CASE.

Mr. Porter Will Not See His Client To-day.

Nothing to Be Done Till Holden Arrives—Pinkerton Detectives Deny Resorting to the Sweating Process.

Mr. E. Guss Porter, counsel for W. H. H. Penton in the Napanees Bank case, stated this morning to the Intelligencer that he had not been officially advised that he might see his client. There was no necessity to see him to-day, however, as the County Crown Attorney at Napanees, had informed him that to-morrow, when the prisoners are brought up for examination, they will be remanded until the arrival of Holden from Boston, when the preliminary investigation will be proceeded with.

Mr. W. B. Northrup has been retained to act with Mr. Porter as counsel for Penton.

A dispatch from Napanees says: The Pinkerton Detectives employed on the case state to-day that they have not interviewed Penton since his arrest, nor is it their intention to communicate with him. They add that they have preferred no action against him or any of the prisoners, nor have they made any arrests, despite statements to the contrary. Imputations made by counsel for the prisoner Penton that the detectives have resorted to the sweating process are denied in toto.

The Pinkerton agency claims that its efforts have only been to learn the truth regarding a crime committed. It is supposed the instructions of Pinkerton detectives to resort to any measures which would prejudice their testimony on the witness stand, or which would tend to bring their methods into disrepute.

#### Why Counsel Was Excluded.

There is a reason for the delay, and it is given in the statement that in Mackie's possession, when arrested, were found a number of rare coins, evidently part of a collection. Mr. E. H. Baines, of the Dominion Bank branch here, had a collection of coins, some of which were taken in the raid on the bank. A hitch occurred in the identification of the coins, but the reason for this was that Mr. Baines had presented a portion of his collection to a friend now residing near Boston, and was not sure of the exact place where he had given away. To-day, however, it is asserted by the authorities that the identification is complete, and accordingly the prisoners are at liberty to seek the advice of counsel. In the identification of these coins will, it is expected, form an important part of the case against Mackie. Detective Wilkes, who is also in the case, has been taken into the case, although he is not a party to the case, but his presence is evidently not complete.

### A Newspaper Proprietor in the City

Mr. James H. Ross, proprietor and editor of the Smith Falls News, was in the city yesterday evening the guest of his uncle, Mr. Horace Yeoman, and went to Penton's house to visit his father. Mr. Ross publishes one of the best weekly newspapers in the Province. Its circulation is almost equal to that of the Acton Free Press. Its columns are crowded with everything that possibly can be occurring in Smith's Falls; its corps of correspondents from the surrounding district are evidently wide-awake, and its editorials are original, terse, dealing with a great variety of subjects. The paper must be a tower of strength to the Liberal Conservative party in Eastern Ontario.

#### Noel Darroch was up on the old charge of wife-beating.

The Magistrate did not hear the evidence, but sent him up for two months on an old sentence, which had been suspended.

#### Popular Non-Com. Leaving.

Another of Belleville's popular young men leaves to-day to enter upon another sphere of usefulness. Mr. Arthur Dudgeon, formerly of the Intelligencer staff, having secured a good position in London, leaves to-day for the Forest City. Mr. Dudgeon, who was a sergeant in the XV. Battalion, has been both in military and in civilian circles and his many friends wish him abundant success in his new home.

### THE LIQUOR CASES.

#### Peculiar Court of Magistrate Flint—Mr. Jos. Haverson Appears for the Defence.

Messrs. James Ketcheson, S. Curry and Wm. Bottom, hotel-keepers, appeared in Police Court to-day charged with selling liquor during prohibited hours. The only witnesses for the prosecution were Marshall Fernie and Jas. E. Wamsanaker, two informers, who were sent down from Trenton by Deputy License Inspector James to spy upon the Belleville hotel men. One man said he was promised \$5 if he secured a conviction and the other did not know what he was to get.

In Mr. Ketcheson's case the man swore to having bought liquor at his hotel late Friday night and produced a bottle, which they claimed to have secured there. Mr. Ketcheson swore that neither he nor his son sold the liquor and that no one else was authorized to do so. He had no other evidence to produce. The evidence was something similar in the other cases, there being only the two informers as witnesses for the prosecution.

#### Mr. Jos. H. Flint, counsel for the Licensee, Victor Jones, appeared for the defence and made a strong fight for his clients. Mr. J. P. M. Anderson appeared for the Crown.

During the progress of the case, Magistrate Flint referred to a circumstance which has caused a great deal of unfavorable comment during the past few days. It seems that when Crown Attorney Anderson had information against eight hotel men before him, that Mr. Flint went to the different parties and urged them to plead guilty. One man was visited by him five times. This man and four others yielded, and paid or promised to pay the Magistrate \$25 each. Our informant secured a written statement from the man who signed simply "J. J. B. Flint," without any official addition.

Mr. Flint explained that he went to the hotelmen and asked them to plead guilty simply to save them costs and publicity. He stated that he had been misapprehended and that he would pursue a different course in the future.

If this explanation is correct it is very creditable to the Magistrate's good sense of heart, but it is certainly not in keeping with the duty of the position he occupies. Explanation on this point seems to be needed.

The Intelligencer has been informed that this is not the first time that the hotel men have been warned by officials who administer the law to plead guilty.

#### A Church Social.

A garden party under the auspices of the Young Ladies' Aid Society of St. John's Church was held on the lawn of Rev. W. Maclean, George st., last night. The attendance was large and a pleasant time was spent. A musical programme was given consisting of vocal solos by Mr. J. N. Davis, Master Willie Cunningham, Miss Maud and Miss Petrie and a violin solo by Miss Lister.

#### No More Painful Corns.

If there is one thing more aggravating and annoying than another, it is a painful corn. But the corn is not so much a nuisance as suffering humanity from this cause of annoyance than all other means combined. Bathe the foot in hot water each night and morning, then apply the corn cure for three days as directed, then corns can be readily taken out with the point of a knife, roots and all, without the slightest pain. All druggists, 50 cents.

## IS GARCIA DEAD?

If So, One of the Oldest and Ablest of Cuban Generals is Out of the Agitation.

New York, July 21.—A Kingston, Jamaica, cable to the Evening Post says that Cubans arriving from Siboney report that Gen. Garcia is dead.

The last word recently received by the Cuban Junta in this city from General Garcia was dated before Santiago, July 11. It was a cable message, and stated briefly that he was well, and that the progress of events was satisfactory.

At that time Garcia was to the west of Santiago, guarding the approaches from expected reinforcements to the city.

General Garcia was one of the older and ablest of the Cuban revolutionists.

Admiral Sampson spoke in high terms of his soldierly and intelligent bearing when he won the battle of the Sagadahoc.

His special field of observation for the past two years has been the Province of Santiago, where he successfully evaded the superior Spanish forces sent out to defeat and capture him.

Watson's Long Voyage.  
Washington, July 21.—It is now stated that Commodore Watson's expedition is being equipped for a 15,000 mile voyage, viz., to Manila. It will contain eight vessels, with a total complement of 95,000 men. The supply ship of the squadron has rationed for 4,000 for three months. As such of the warships can carry enough coal to take it 1,000 miles, it will be seen coal to be taken along in four times as much as would be required for a trip to Spain. As each warship carries provisions enough for three months, it is obvious the food taken on the supply ships would be entirely superfluous if the expedition had for its limit the Philippines. The squadron is expected to start within 48 hours.

Porto Rico Expedition.  
Charles, S.C., July 21.—With hands playing and 80,000 people cheering, the first expedition to follow General Miles to Porto Rico, got away from here at 7 o'clock last evening. The expedition is under the command of Major-General J. B. Wilson.

A Bloody Riot.  
New York, July 21.—A copyrighted despatch from St. Thomas, Danish West Indies, to the Evening Journal says: Serious riots, resulting in many deaths, have occurred at St. Thomas. On Sunday last the natives, declaring that they were American sympathizers, and intended to aid Gen. Miles' invading army on its arrival. During the rioting about nine persons were killed. Scores of wounded were taken to their homes and the Marquis Hospital, and some of these will die.

Serious Shipped Shafter.  
Santiago de Cuba, via Del Este, July 21.—Sylvester Shafter, the newspaper correspondent who has been confined in the Corral Real since Sunday for having assaulted Gen. Shafter, yesterday was removed to Siboney in the tug Columba under a small guard. It is not known how his case will be disposed of. He may be tried here or taken as a prisoner to the United States. Shafter attempted to make himself a part of the Flag Raising Committee at the Palace Sunday. He attempted to go to the roof of the Palace, when he was ordered down by the guard. Forcing his way through the crowd, he slipped into Shafter in the face. He was promptly arrested.

Indignation at Washington.  
Washington, July 21.—Among officials at the War Department, indignation was expressed yesterday morning at the report that Shafter by Sylvester Shafter, correspondent of the New York World. One of these officials, high in the department, said that it was a simple attack upon a citizen, but upon the head of an American army and as such was an affront to every American official.

## Letter Burrows Millions.

Chicago, July 21.—Levi Z. Letter, publisher of the West Plains, has now practically closed the contract which he has been negotiating with the Northwestern Mutual Life Insurance Company for the loan of \$3,000,000 on his real estate. Of this sum \$2,000,000 will pass over to him this week, and the remaining \$1,000,000 next week. The rate of interest is 4 per cent.

Two Men Burned to Death.  
St. Paul, Minn., July 21.—At 1 o'clock yesterday morning the shingle mill of Mr. N. Caron, of St. Paul, Minn., was completely destroyed by fire. Guillaume Ross and his son, about 17 years of age, employed as fire watchmen, both lost their lives in the mill.

Walking on Air.

Trembling Hands and Shaky Memory.  
A HAMILTON MAN'S EXPERIENCE  
WITH A NEW MEDICINE.

DEAR SIR,  
I have spent half a fortune in doctors' bills, all to no avail. These bills seemed to reach the seat of disease at once, and they also seemed to possess a remarkable influence on the heart, the trembling of the hands, the loss of memory and general collapse of the entire system have been cured. Dr. Ward's Blood and Nerve Pills. Great were the results. I am enjoying the very best of health. Truly believe they are a boon for others as well as for myself. I have done for the same. Before using them I was a miserable wreck. Today I am a well man.

Yours truly,  
THOS. LYNN, 31 Elgin St., Hamilton, Ont.

LUMBER MILLS IDLE

And Houses Empty—All the Result of the Government's Policy.

A reporter lately visited Penetang and interviewed Mr. C. Beck on the lumber question, the United States import duty on our logs and the laxity of the Government in allowing United States lumbermen to come into this province free of duty and logs to be towed across the lakes without export duty being charged. He said: "I have been in the lumber business all my life, and the fact is that I now have a life-long experience in the business. I have two mills, one of twenty million feet for the export of the province and the other for the local market. For the past two years the large mills have not been in operation, while the smaller one has only run part of the time. This shows a great many honest men out of employment, while our logs are towed across the lakes, making employment for the United States millmen."

Mr. Beck said that trade was very dull, and that the lumber trade was in a very depressed state. He said that the lumber trade was in a very depressed state, and that the lumber trade was in a very depressed state.

There is a fair demand in Western Ontario, but we have no travellers on the road, but get just our fair share of the trade. There are so many lumber travellers on the road that the lumber trade is greatly benefited by them. It costs so much to send lumber this way that the lumber trade is greatly benefited by them.

## HON. A. G. BLAIR'S ERRAND.

The Canada Eastern Railway as a Government Aid.

His Trip to England May Have Had Something to Do With This Project That His Ontario Colleagues in the Cabinet Ruthlessly Slaughtered—It is a WHOLE NEW MORAL NEWS.

Montreal, July 23.—There has always been more or less curiosity manifested in political circles, both in New Brunswick and old Canada, as to the nature of Hon. A. G. Blair's errand to England. The trip of the Minister of Railways and Canals, as it appears, something to do with negotiations leading up to the Canada Eastern Railway, running from Fredericton to the town of Chatham, on the Intercolonial. It will be remembered that Hon. Mr. Blair endeavored to get the sale of the Canada Eastern to the Canadian Government through Council some months ago, but that the project was thrown by the Ontario members of the Cabinet, who held that the terms were not such as to commend a transaction to their judgment. There was also a rumor about the Canadian Pacific was after the line and had offered Mr. Blair something less than a million dollars for the road in question. The Canada Eastern was then looked upon as a road that would become a good feeder to the Canadian Pacific, and in the latter company's hands the traffic would be drawn to the C.P.R. rather than to the Intercolonial at Chatham.

The story goes that Hon. Mr. Blair has never given up the idea of having his views, which were favorable to the C.P.R., on the subject of the road by the Government, accepted by the majority of his colleagues, and rumor has it that Sir Wilfrid Laurier is inclined that way, upon condition that such a sale would bring strength to the Ottawa Administration in the Province of New Brunswick. The road, however, as well as most of the stock of the Alexander Olsson Manufacturing Company, appears to be in the hands of Messrs. Farworth and Jardine of Liverpool and it is with these gentlemen that the Hon. Mr. Blair and the Ottawa Government now have to deal.

It is said that the Minister of Railways and his colleagues are agreed that it is not important that Hon. George E. Foster should be defeated in York, and that Mr. Blair thinks that the proposed railway deal might be a very effective means to this end. And it is also said that the Ministers, since the election of Farworth and Jardine on the road for the sum of \$1,500,000, and to use every possible means to have the deal put through as soon as possible.

Kellett Made a Good Capture. Detective Joe Kellett of the Metropolitan Bureau made a clever capture yesterday, and one of great importance.

Some weeks ago a daring robbery of \$1,300 worth of diamonds took place in New York, and a young man named Frank Holmes was suspected. He succeeded in escaping, and the police at once communicated with detectives all over the continent, among them being Mr. Kellett. His watchful eye soon lit on the youth who answered the description, and, carefully shadowing him from place to place in this city, he soon became convinced that he had found the right man. Yesterday Mr. Kellett placed Frank Holmes under arrest. He was at once taken before Judge Wierlein, who remanded him for eight days. He will then, or perhaps before, be asked to plead before an extradition commissioner.

A young Englishman named Louder, aged 24, committed suicide last evening at West Mount by shooting himself through the head with a revolver. Despondency is the alleged cause.

## THE N.A.A.O. REGATTA.

The Arguments of Toronto Will Be Four—Oared Shell Races.

Philadelphia, July 23.—The 35th annual regatta of the National Association of Amateur Oarsmen was opened here yesterday under the most favorable auspices. The weather was all that could be desired, the water was smooth and the contests were all good.

Yesterday's events consisted of two trials in intermediate singles and finals in the senior pair oared, senior double, senior four and intermediate light-oared shells. The champion prize went to Toronto, another to Worcester, Mass., and the other two to Philadelphia. The trophies of the day were the defeat of Wright and Thomson, the Toronto Argonaut champion pair, who were defeated by the team of the Pennsylvania Barge Club. There were three starts in the senior four-oared shell race—Argonaut of Toronto, led by Baltimore and Western of St. Louis. The Argonauts won the start by a half a length. The St. Louis men did considerable splashing, while the Argonauts showed great teamwork, which enabled them to take the lead and win by a length.

Headmaster, 5th Batt., 58th place; Lieut. Smith, 5th Batt., 60th place; Sergt. Simpson, 10th Batt., 100th place; and Sergt. Armstrong, 10th Batt., 117th place; each won 50 shillings.

## General Notes.

Only Sergt. Armstrong, Lieut. Ross and Lieut. Smith are in the prize list for the Graphic. They each scored 84, seven shots at 600 yards.

During the morning great complaints have been made about the deduction of entrance fees. If the practice is continued it may be difficult in 1899 to induce men to come over here.

Half-fall at intervals yesterday, and the wind was whiffy. Some members of the Canadian team have not fired at all in some of the competitions.

## BRITAIN WILL KEEP PEACE.

Mr. George J. Goschen on the Supplementary Naval Program.

London, July 23.—The eagerly expected statement of the First Lord of the Admiralty, Mr. George J. Goschen, on the supplementary naval program, was made yesterday in the House of Commons. He reviewed the original program, which was framed, based upon the two-power system, the navy of Great Britain was equal to the combined fleets of any two powers. But, in consequence of the action of the House on the original program, the Government was compelled to present a supplementary program, paralleling the Russian increase of six battleships, which Russia proposed to begin in 1898. Only two battleships were taken into account in the original British program, and the First Lord of the Admiralty asked the House to grant four more battleships. (Cheers.) Continuing, Mr. Goschen remarked: "The Russian program provides for four cruisers. We propose to build four cruisers and also three destroyers."

It is estimated that the cost of the new program will be \$5,000,000, will include the entire expenditure for the new ships \$15,000,000. The battleships will be specially adapted for the passage of the Suez Canal.

## ANOTHER TIMBER LEG.

The Peculiar Tramp Who Is Exciting Sarnia at Baby's Point.

Windsor, July 23.—A man answering the description published by Constable Williams of London, wanted for shooting Policeman Twoboy, has been prevailing around the country in the vicinity of Baby's Point, a few miles west of this place, for several days. People who have seen him believe he is the much-sought-for tramp.

He acts suspiciously, avoids company, begs food, but refuses to eat unless he has a drink. He was involved in during a rain storm. Persons who attempt to interview him or follow him are given clearly to understand they must leave him alone. He wears a shoe on the wooden leg and pants full length. The straps holding the leg are so plainly discernible. No attempt to arrest him has been made, as the people are afraid of him. The London police have been notified.

# Baby's Own Soap

IS NOT, as most soaps, made from "soap fat," the refuse of a kitchen or the abattoir.

VEGETABLE OILS supply the necessary ingredients—one of the reasons why it should be used in nurseries and for delicate skins.

### GRIT POLITICAL MORALITY.

"The Tories knocked out." So says the Ottawa Free Press in referring to the action of Mr. Hardy in calling the Ontario Legislature together to pass a law legislating what are considered illegal votes, thereby legislating himself and colleagues into power for the next four years. It is not often we have so frank an acknowledgment from a Grit.

The same spirit of political theft seems to pervade the whole Grit Press. The Whig, which occasionally gives signs of returning reason, says:

"In Ontario the Conservatives are in distress because the Liberals, in the Government and in the Legislature, are going to meet too soon, and in order to save the courts a lot of trouble by defining the position and electoral rights of certain persons."

No, no, dear Whig. The Conservatives are not in distress on account of the meeting of the Legislature. What they are in distress about, and so are the honest electors of Ontario, is at the idea of a Government deliberately calling Parliament together to legislate themselves into office after being defeated at the polls by the properly qualified voters.

Why not go a little further, and kindly save the courts a "lot of trouble" by passing a law declaring that all members of the Legislature who have been elected after the election of the Ontario Legislature, thereby saving every Grit who is elected to the Legislature, from being just as honest as the other, and what a "lot of trouble" and expense would be saved to the sixty cents, who have to fight for their political lives in the courts.

Even that independent (?) journal, the Hamilton Herald, seems to have lost its reason. It declares that "Mr. Hardy has not committed a tactical blunder. He has very cleverly blocked the Tory game."

Yes, he proposes to block "the Tory game" by declaring that some eight or ten of his supporters, who were likely to be elected by the electors, were duly elected, and thereby retain office. That, too, in the face of the fact that he himself has referred the question of the legality of certain votes to the judges of the Court of Appeal for an opinion. Knowing that their decision would be against him, he calls the Legislature to confirm himself in office. It is nothing less than stealing seats in the Legislature and Ministerial offices.

Such, unfortunately, is Grit political morality in this age of Ministers, Tories, Liberals, Blairs, Simons and Hardys. How long is it to last?

**THE QUEBEC CONFERENCE.**

Questions Which Will Come Up for Consideration.

First Comes the Boiling Sea Sealing Matter, Which is the Paramount Issue to be decided at the Conference.

The British Government and the Government of the United States have finally decided upon the subject which is to come up for consideration at the approaching conference at Quebec. They are as follows:

For seals in Behring Sea and the North Pacific.

The Atlantic and Pacific coast fisheries and fisheries in inland waters contiguous to the frontier.

Delimitation of the Alaska-Canadian boundary.

Transportation of merchandise in bond through the United States and Canada.

Alien labor laws.

The mining rights of citizens of one country within the territory of the other.

Reciprocity of trade.

Naval vessels on the lakes.

Other subjects are described of minor importance, except provisions for the convenience of officers of one country through the territory of the other.

Right of these subjects are so to be classed as outstanding matters in dispute between the two countries, to which are added the latter points and the question of reciprocity.

What the U. S. is Most Interested In.

What the United States is most interested in is the sealing industry in Behring Sea. If Canada agrees to seal out its interest to the United States, and withdraw its fur-seal fishing fleet, the American commissioners will doubtless be willing to accept something substantial in return.

In regard to the Atlantic Fisheries, the most probable that Canada could consent to would be to retain the three-mile limit as at present, but to extend to the United States full freedom to enter Canadian ports and purchase supplies, bait and whatever they might desire in addition to the privilege of exporting their catch in bond. In other words, the American fishermen would have all the advantages that the Canadian fishermen would have except that the territory within the three-mile limit would be reserved for Canada.

Mining Rights.

American now obtain in Canada all the mining rights that a Canadian can hold, so that some concessions will be looked for from the United States, whose laws prevent alien holding claims, etc.

In respect to the bonding privileges and the alien labor laws, both countries are about equally interested, and both are anxious for an amicable settlement.

As for the Alaska boundary, the same thing might be said, although with the present rush to the Klondike and the claims made to develop that region, Canada is looking for some concessions, which might well be given in return for concessions to be secured by Canada in connection with the Atlantic and Pacific fisheries.

As to naval vessels on the lakes, there cannot possibly be any very serious difference of opinion, nor will there be any desire to refuse provisions to convey persons in custody of officers of one country through the territory of the other.

The Matter in a Nutshell.

The whole question then narrows itself down to this:

How much can Canada get in the way of a better trade arrangement with the United States if she withdraws her sealing fleet from Behring Sea? Something good should be offered in return for the way of free fish or free barley will be necessary even as a political argument before the American commissioners could be putting a stop to its sealing industry. Canada might also give free coal for her lumber. If all this is accomplished, it is not only about as much as is looked for in official quarters, but it might be about all that ought to be pressed for, because the United States Senate probably would throw out any extensive reciprocity treaty.

The conference will sit at Quebec, but the treaty, if such a consummation can be reached, will be signed in Ottawa. Extensive arrangements are now on foot to give the American commissioners a grand tour of the Canadian cities during the program to entertain them during their stay at the Ancient Capital before they have to return to Ottawa. The conference is expected to last only three weeks.

### WAPNEE GAIL SECURE.

Electric Lights to be Placed in the Corridors.

Joseph Haycock, Jun., Corroborates the Story of Mrs. McGreer Regarding the Noises in Ponton's Room.

(Special to The Globe.)

Napawee, July 25.—Dr. Chamberlain, Inspector of Prisons for Ontario, came to Napawee today for the purpose of investigating the capabilities of the gail in retaining the possession of the four prisoners now in custody. A thorough examination of the building was made, and at the end of it Dr. Chamberlain expressed himself as being perfectly satisfied upon the point of the safety of the prisoners. The gail is very secure, he said, and with ordinary precautions there is little danger of an escape. Dr. Chamberlain, however, decided that lights were needed in the corridors, and that they would be put in at once. By the Provincial authorities, the County Council, in whose hands the matter should rest, being at a deadlock upon the question. It is not thought probable that the friends of either of the burglars will attempt a rescue while affairs are in their present condition, although after the men are released, if they will be, the precautions taken against a "break" will be redoubled. In the meantime every suspicious-looking stranger who frequents the gail yard is closely scrutinized, and tonight some of these characters, who were caught examining the building from the outside, was run out of the vicinity. Some of the prisoners are searched almost daily, and their cells are changed regularly, but without warning to the inmates. The last change has put Ponton out of the sight of his admirers who formerly watched him over the gail walls, and to-day a number of these made another request to the Sheriff for permission to send him a bouquet of flowers. The request was refused, and Ponton himself will be asked not to communicate with those who attempt to address him through the window into the day corridor.

People are still coming in from the country around about for the identification of the men. Some of the men who recognize at least the two first named, and others are unable to do so. Mrs. McGreer has been lately identified positively as a woman who slept night after night in a barn some miles from the town. These were not disturbed during the time they occupied the building, for the reason that besides the men of them. The men were never seen to enter the building at night, but were "variously" found there late in the morning or upon sleeping. Those possible witnesses who are being brought into town for the identification of McKie are in almost every case in a state of excitement, and with eager queries as to whether or not they knew him. He never receives the information, for under instructions from officials no word is allowed to pass between the prisoner and the visitor. McKie has been so connected with the robbery by these identifications that he will have very little opportunity to enter a plea other than one of guilty, and he appears to realize the situation, for as yet he has said nothing about securing the services of a counsel. It is expected that besides pleading guilty he will take the stand and re-tell the story. Detective Dughey did not return last night from his trip to the country, but he is expected back tomorrow. He is after fresh evidence.

One of the points of the Crown's case, which was fiercely attacked by the defence, was that the evidence of Mrs. McGreer, who testified to hearing people moving in Ponton's room on the night of the robbery. Ponton denies it that anyone was in his room on that night, and Mrs. McGreer's story was not believed, as it was thought to be the result of pure imagination. Now a young man named Joseph Haycock, of Detroit, who is a leader in the Ontario Legislature, comes forward and says that he heard identically the same noises. His story is that he was sleeping in one of the rooms over the apartments of Ponton, and on the night of the robbery could not obtain sleep because of a toothache. His attention was attracted by the sound of what he thought was a falling window. He had also heard talking and some shuffling in the room before, but at that time he thought it was the wind. He was awakened by a noise, which he thought to have been the sound of a falling window. He was awakened by a noise, which he thought to have been the sound of a falling window. He was awakened by a noise, which he thought to have been the sound of a falling window.

When the investigation opens finally the proceedings will probably be very long, and it will then be that the counsel in the case will be determined. The importance of the case will be shown by the fact that most of the leading members of the bar in Ontario whose specialty is criminal work will be engaged upon it.

The detectives employed upon the bank robbery case have been burning about here like bees during the past few days. Detectives Dughey and Heffernan were here yesterday, and Detective Jones and Chief Carpenter, of Montreal, were here on Saturday. Absolutely nothing can be learned as to their movements or intentions.

PREAK OF THE ELEMENTS  
Strange Conduct of a Thunderbolt.  
As mentioned in these columns the pottery of Messrs. Hart Bros. & Lazen was struck by lightning during yesterday's storm. It seems that the bolt, after striking that building, glanced off and struck a large stone in a vacant lot near Mr. L. C. Pascoe's. Glancing off this rock it struck the roof of the house, and the result was that the roof was struck and a large number of the tiles were blown off. The occupants of Mr. Pascoe's house were stunned, and the shock was felt for several hundred yards around.

Unhappy Crown Has More Substantial Evidence Than That Published. Porter Will Not Be Troubled.

Napawee, Ont., July 26.—Mr. E. G. Porter, Ponton's counsel, says that if the Crown has no more substantial evidence than that published yesterday, the case will be dropped. He has several letters from Ponton, the wonderful sensations promised next week will not trouble him. These letters were forwarded to the jail yesterday. It is supposed to identify McKie.

It will be recalled that Lawyer Lyons of Belleville said two men had started for Napawee to rob the bank and broke into the jail yesterday.

It was expected two more would have been lodged in jail yesterday, but the prisoners have not yet arrived. It is said the two young men so much talked of, one of whom has been in a hospital for some days.

It is rumored that the Crown will try to show the following: That Mr. McKie, the manager, was to take his vacation Aug. 6. Ponton was to be delayed in making up of his cash, and was to be requested by Mr. McKie to look after the safe. And so it happened, except that the inner safe was not locked. Ponton went in that night, but there was no money to satisfy him. He took the covering from the back of the lock to ascertain some of the figures of the combination. Then having filed down the bolts he would have had little difficulty in opening the door.

Ponton is supposed to have given this up.

Here is Something To Think About.

The Foresters of Belleville have engaged the str. Cambria of Toronto for their third annual excursion to Rochester, Buffalo and Niagara Falls, leaving Belleville Saturday night, Aug. 6th at 11 o'clock, giving two days to visit Rochester and other places. Fare from Belleville and return, \$1.25.

Belleville Boys Win Honors.

The Victoria, B. C., Colonel of July 14th, last, says: "Messrs. J. H. Long and D. S. Wallbridge, of Vancouver, and Messrs. A. S. Potts, A. B. Gray and A. J. O'Reilly, of Victoria, were yesterday called to the bar and admitted as solicitors, and Mr. H. M. Hills was called to the bar by the benchers of the Law Society. They were afterwards introduced to the full court by Mr. E. V. Bodwell and sworn in. Messrs. C. M. Potts and R. F. Child, of Victoria, were enrolled as student-at-law."

Messrs. A. S. Potts and C. M. Potts are sons of Dr. Geo. J. Potts, formerly of Belleville, Ont. Mr. A. S. Potts is a son of the late A. H. Wallbridge. Mr. A. S. Potts passed at the head of the list.

There Should Be a Law

to prevent the publication of "fake" advertisements which claim to have made wonderful cures, and by this means steal not only your money but your health.

Any statement you see of a recovery being due to Ryckman's Kootenay Cure is given under oath and the person who gave it is ALIVE and WELL. The testimony cannot be contradicted, and we have hundreds of such in our possession. Rheumatism, Inflammation, Muscular, and Kidney Diseases of all forms, including Bright's, Blood and Skin Diseases, Eczema, Salt Rheum, Rash, or Pimples. All are cured.

"I had Rheumatism seven years, which was followed by a stroke of Paralysis. Four physicians pronounced my case hopeless. I was bed-ridden, and my health was all the time of my limbs. These ailments have been restored to me since I took a treatment of Kootenay Cure. I do not know how to express my gratitude. All this is due to Kootenay Cure. I am 45 years of age, and make this solemn declaration before the Justice of the Peace."

A Pleasant Trip.

Why should any one go far from home for a summer outing when a most pleasant holiday can be taken at a small amount of money by taking the American Line to Montreal through the 1907 Islands near the St. Lawrence and shooting the numerous rapids? The boats leave Kingston daily, either for the islands, or the combined trip. The new river boat, the "New York," is without doubt, the finest ever put on this route, the cuisine, the food, up-to-date, and the cuisine excellent. For full particulars write or call on J. A. Goodrich, 1000-1001, 1002, 1003, 1004, 1005, 1006, 1007, 1008, 1009, 1010, 1011, 1012, 1013, 1014, 1015, 1016, 1017, 1018, 1019, 1020, 1021, 1022, 1023, 1024, 1025, 1026, 1027, 1028, 1029, 1030, 1031, A Narrow Escape.

The Thrilling Adventures of Four Boys.  
Harry McCudden, John McCudden, Geo. Phillips, of Belleville, and Jack Butcher, of Marmora, went bathing near Loughborough dock yesterday afternoon after they had spent some time in the water they decided to have a sail, so they boarded a sail-boat and started out.

When a short distance below Buck's Mills, the boat was capsized by a gust of wind, and the four boys were thrown into the water. They managed to turn the boat over and clambered up on top. Here they remained for over an hour. The steamer Varuna passed them on her way to the city, but as they were considerable out of her course, they were unnoticed at first. When the steamer was about three-quarters of a mile past, however, Mrs. Hicks noticed the capsized boat and the boys gave the alarm.

The Varuna immediately turned, went back and picked them up, not much the worse for their adventure. They were taken ashore and their clothing was dried. They were then taken to the city and their clothing was dried.

A Boy Dead.

Harry D. Sprague, son of Mr. S. M. Sprague, G. T. R. brickman, Foster ave., died, aged 10 years, while in swimming last Wednesday afternoon he bruised his head, and it is supposed the shock so affected his nervous system as to cause his death. Harry was very popular, and his many companions will regret his untimely death. He was a member of St. John's Presbyterian Sunday School.

The funeral will take place on Thursday afternoon at 2 o'clock.

### PONTON SEES HIS BROTHER.

They Exchanged Looks a Long Distance Apart.

Reported Recognition of Mackie as a Companion of Pare and Holden—Movements of Detectives—False Rumors Contradicted.

(Globe's Dispatch.)

Napanee, July 26.—Ponton's brother came to Napanee today and asked permission to see his relative. He was told by Under Vanhousen that the instructions given to him were to permit no one into the presence of any prisoner without the authority of the Crown Attorney. The boy was very much disheartened, but he quietly accepted the decision. As he slowly left the jail he turned, then perhaps 300 yards from it, and saw his brother's face watching him from a steel-barred window. The recognition was mutual, and although they could not speak, the boys stood and watched each other. William waving his handkerchief through the bars until his brother jumped into the buggy of a friend and was quickly driven away. This was George Ponton's last day of summer vacation, and he said that he only wished to shake hands with Will before returning to his work in the west, but even this was denied him.

Detective Dougherty returned here today with Edward Park of Rochester, who at one time was a sectionman on the Bay of Quinte Railroad here. Post came here for the purpose of identifying Park and Holden as two men who used to frequent his house, which was up the track from the railroad station. It is said that Mackie was also identified as being sometimes with the two tramps. Pare and Holden are responsible for the nickname given Post. They used to go to his place to drink beer, and were invariably told to go to the tub, which stood under the pump in front of the building. After some time they began to address him as "Tub" Post, and the name sticks to him yet.

Detective Dougherty went to Toronto today and Detective Wilkes to Belleville. They will return in a day or two, and will then remain here until the investigation opens next week. Both these gentlemen and the Crown Attorney say that the story as to Park being all right is untrue. Baines to close the safe, thus giving him an opportunity to leave the inner doors, entitles the originator of the tale to another guess. The guess is that a letter sent by Ponton to the Sackin' woman, is absolutely untrue.

### Local Notes.

Constable Sills and Detective Wilkes were in the city yesterday, and were closeted with Chief Newton for a couple of hours.

Mr. Wilson, of Napanee, counsel for Robt. Mackie, was in the city yesterday, and returned with the officers on the early morning train.

Mr. E. Guss Porter and Col. Ponton went to Napanee on the noon train to-day. Mr. J. Cummins and Mr. T. McGinnis accompanied them, presumably to act as bailsmen.

### THE BANK ROBBERY.

Both Sills Hard at Work and Profoundly Ready for Trial—A New Mackie Theory.

Napanee, July 27.—Both parties in the bank robbery case are hard at work. The officers are each working up a theory to identify some of the prisoners. It is said that their chief object now is to identify Mackie as one of the tramps who hovered about here the week before the robbery. The theory is that Mackie some time came down from Belleville, spent the afternoon with Pare and Holden in the bush, and returned home in the evening. At the time that Holden was brought in on Saturday a family of four or five living not far from that grove were just coming out of the Mill, where they had been seen on a identification mission. Their story is that the tramps came to the house for water and were given to them a glass of beer and a slice of ham or candies, and one of the little girls remarked to Mackie in the cellar: "Oh, you are the man who had the nice watch!" Another man, apparently an Indian, has been seen to see them, but the result is not known. The detectives have been busy every day, and it is now reported that they are all ready with their witnesses.

The lawyers for the prisoners also claim to be ready, that they have been ready and anxious for days. If these statements are correct, the chances are that the hearing will begin in a few days on Friday morning.

No new prisoners have been brought in, but rumors are still flying about. One of them is that the authorities have had notices to hold two cells in readiness at any moment, but for whom is not known.

It is said that Mr. Porter, Ponton's counsel, accompanied by Mr. Wilson, in behalf of Mackie, in fact, called on Saturday evening and had an interview with their clients. Mr. Porter is reported to have given to the boys a number of real good news about the case, but it does not appear what it is.

The prosecution now complain that these men should not be let in at such unreasonable hours. On the other hand, the defence contends that the detectives are allowed to run in all sorts of people at all sorts of hours on the pretext of identification missions. Between the two, the prisoners are made pretty uncomfortable.

### PONTON WON'T COME OUT.

He Refuses to be Bailed by His Friends.

Will Stay in Prison Until he can Get Out Without the Aid of Money.

(Special to the INTELLIGENCER.)

Napanee, July 27.—When bail was offered for Mr. H. Ponton's release this morning, he informed his friends that he would not accept their kind offers on his behalf. He further said, "I will remain right here until I can get out without the aid of money."

Another Account.

Napanee, July 27, 2.15 p.m.—The Magistrate appeared at the parker of turnkey Clarke at the jail at 1.30 to grant bail to the prisoner W. H. Ponton.

Messrs. Porter, W. N. Ponton and W. G. Wilson were present on behalf of the prisoner, with the two sureties, Messrs. Thos. McGinnis and James Cummins, of Belleville.

These bondsmen were accepted for \$5,000 each. Mr. W. S. Harrington was present on behalf of the Crown and H. M. Denoeche for the bank.

When the bail bond was read to the sureties and the prisoner, the latter thanked his two would-be sureties but declined their generous offer. "I do not intend to go out of here until I am a free man," said Ponton.

The County Attorney picked up the bond and marched out.

Afterwards Ponton said to Mr. Cummins, "I told you what you were taking me to the window on Saturday that I would not accept bail, and am very sorry you have been put to so much trouble."

Col. Ponton is very anxious that the prisoner's mother should be allowed to see her son and is endeavoring to get the permission from Mr. Harrington.

Mrs. Ponton is expected down the end of the week, to remain in town until after the trial.

### Railway Passes.

That Government officials and employees should have passes is claimed by many persons to be highly detrimental to a good honest administration of the Nation's affairs. He who is paid to manage the affairs of this country, that the use of passes, untested, and obnoxious mixtures is injurious to those who use them; therefore, when buying good standard, well endorsed articles.

### ALBERT COLLEGE.

Important Changes in the Staff.

The Executive Committee of the College at its meeting yesterday made two important changes.

Mr. J. H. Fall, B.A., was appointed Prof. of Mathematics and Physics, to take the place of Mr. N. L. Massey, B.A., who has accepted the Principality of a new High School. Mr. Fall has just graduated with most distinguished honors at Toronto University, having taken the first place in first-class honors in Natural Science throughout his entire course. He has also won the Edward Blake and the Daniel Wilson scholarships in the respective years.

He holds a Senior Leaving Teacher's certificate and has been a successful teacher. He taught for one year at Albert College previous to taking his B.A. with very great satisfaction to all concerned.

He has, during his University Course, been prominent in athletics, having been on both the foot-ball and hockey teams. He has been President of the Literary Society; editor of the Science Department of the University; and a member of the Phi Kappa Phi Honor Society.

Mr. Jasper Doolittle has been appointed Commercial Master, in place of Mr. A. J. Baker, who has resigned. Mr. Doolittle holds a Senior Leaving Teacher's certificate and has taught a number of years with good success. He is a graduate of the Ontario Business College and a superior penman. He spends his summer as assistant teacher at the celebrated Toledo Business College, which has an enrollment of over 600 students and will, when the fall term opens in September, introduce the methods used in that school into his work at "Albert."

The College authorities are fully determined to employ as teachers none but those having superior qualifications. The work of the College will be maintained to the highest degree of efficiency.

## Daily Intelligence.

## ON JAPAN.

Rev. Dr. Carman's Splendid Lecture.

A fairly large audience greeted Rev. Dr. Carman, the General Superintendent of the Methodist Church, in the lecture-room of the Methodist Church last evening. The venerable doctor, who has just returned from an official tour of Japan, lectured with all his old-time eloquence on the "Land of the Rising Sun."

He described the physical characteristics of the country, the climate, and the people, their habits and mental and moral characteristics. He praised the people for their progressive spirit, and their knowledge of industry, but deplored their gross immorality and their tendency to be misled and deceived. Their political system was explained and reference was made to the spirit of expansion, which now directed the foreign policy of the nation.

The work of missions was then discussed in a very optimistic spirit. A vivid description was given of the trials and difficulties of the missionaries, and an eloquent appeal for greater faith and liberality in the support of foreign missions, brought to a close the lecture, to which, to those present, seemed altogether too short.

Rev. Dr. Gardiner, an old personal friend of the lecturer, occupied the chair.

POLICE NOTES.

A Woman Arrested and Taken to Prison.

Geo. Thresher was charged by Liveryman McCoy with appropriating a horse. He was found guilty but was allowed to go on suspended sentence, having made a settlement with Mr. McCoy.

Chief Newton received a telegram from Trenton to arrest a woman named Kate Wallbridge, who was charged with stealing a pair of boots and a five dollar money-order from Mary Tupper. Officer Cook found the woman, together with her husband, on the outside of the city, and arrested her. Chief Coleman came down from Trenton to-day and took her in charge. It seems that the couple are going around the country selling trinkets, and stayed with the Tupper woman, near Trenton, for some time. When leaving, she asserts, Kate helped herself. The Wellman woman was half drunk when arrested.

Chief Rose, of Brockville, asks the local police to be on the lookout for Wm. McPherson of Onenness, who rented a bicycle from a Brockville man and never returned.

Fred Ross, Jim Whelan and Geo. Wellman, husband of the woman taken to Trenton, were arrested by Chief Newton this morning on the charge of being drunk and disorderly.

Followed Husband's Advice.

"I was troubled for a long time with sick headaches. At last my husband bought me two bottles of Hood's Sarsaparilla telling me this medicine would cure me, as it had cured him of the same. I began taking it and it made me feel better. I am now well. Mrs. ROBERT MCAFEE, Deseronto, Ontario."

A Pleasant Trip.

Why should any one go far from home for a summer's outing when a most pleasant holiday can be taken for a small amount of money by taking the American Line to Montreal through the 1000 Islands down the St. Lawrence and shooting the famous rapids? The boats leave Kingston daily, either for the lake, or the combined trip. The new river boat, the "New York" is without doubt the finest ever put on this route, everything being up to date, and the cuisine excellent. For full particulars write or call on J. A. Gooderly, city passenger agent, Kingston, Ont. Remember there is no smoke, no freight, dining room on main deck, and the boats are modern light draught day line steamers. d&w.

## A MOTHER'S BRAVE ACT.

Rescues Her Children—Heroic Conduct of a Railroad.

Mrs. Jos. Henderson, Better St., as good mothers do, went upstairs last night and placed her children safely in bed. While about to descend the stairs her sleeve caught on a lamp and it fell to the bottom of the stairs. The globe was broken and the oil burst into flames. Some clothes hanging on the wall ignited and in an instant the house was full of smoke.

Mrs. Henderson's first thought was of her children. She found that escape by way of the stairs was cut off, so she opened the door to the kitchen, and out upon the roof of the kitchen. She then jumped from the roof to the ground and they leaped into her arms. They were all thus rescued except one, the youngest, a mere infant, who could not be reached owing to the G. T. R., upon learning this, bravely dashed through the flames and smoke up the stairs and conveyed the child to a place of safety.

The brigade were called for, but before they arrived the neighbors had succeeded in extinguishing the flames. The damage only amounted to about \$25.

WITH OXFORD LODGE.

The Excursion to Kingston Largely Patronized.

Oxford Lodge, S.O.E., had their annual excursion to Kingston and the 1000 Islands per G. T. R. to-day. A very large number availed themselves of the opportunity to view the scenery of the beautiful St. Lawrence, ten first-class coaches being completely filled.

The accommodation provided by the road this year was excellent. Train Master Egan accompanied the excursionists to Kingston, and had everything done to provide for their comfort. Conductor Frank McCallum was in charge of the train and Tom Ormond was the driver.

KILLED BY A WIRE.

A Telephone Lineman Shocked to Death.

Peterborough, July 27.—D. D. Kelly, a lineman in the employ of the Bell Telephone Company, while working on a pole at noon to-day came in contact with a power wire, which so shocked him that he fell to the ground. He was picked up dead. Kelly came from Kingston last night.

No other preparation has ever done so many people so much good as Hood's Sarsaparilla, America's Greatest Medicine.

Some Emphatically Pleasant Things Sold of the Late Lord Beaconsfield and Right Hon. W. E. Gladstone.

With coronets as deeply affecting as any that can appeal to the imagination and the heart of man, the body of Gladstone was laid at rest in that great temple of reconciliation where so many brave warriors are enshrined. He was not buried by the grave of Lord Beaconsfield, his illustrious rival, as the despatches erroneously state, for Beaconsfield's remains rest at Highgate in the west of London, and it is near that that Gladstone lies. And as the epitaphs of Pitt and of Fox, confronting each other in the same great abbey, preserve in their marble tablets the names of English history, so shall the statue of Gladstone and of Beaconsfield stand another monument to the great statesmen of the past.

Nor was the opposition between Gladstone and Disraeli greatly dissimilar from that of Pitt and Fox. It was based on political party and not on personal animosity. Like their later successors, were at the beginning members of the same political party, but in the course of time came a separation, and the lifelong rivalry for power ensued.

Gladstone, though the younger man, entered Parliament in 1832, and Disraeli in 1837, both supporters of Sir Robert Peel. When Peel resigned, Disraeli, then a young man, followed him to the House of Commons, and in 1841 he was elected as Member of Parliament for the City of London. Disraeli opposed him, and from that time until his death in 1881 he was his opponent. Disraeli died in 1881, and Gladstone in 1898. They were both great statesmen, and their rivalry was one of the most interesting in the history of England.

## DIVINE HEALER IN TORONTO.

Schraeder is Sojourning in Beverly Street, Toronto.

A Talk With the Man of Miracles, Who Claims to be the Only an Ordinary Human Being—How Far He Could Remove a Mountain He Did Not Explain—When His Power Came to Him—His Personal History.

Toronto, July 30.—Beverly street is all astir over the appearance in it of an extraordinary looking man with long hair and all the other marks of a genius. The stranger is no less than Schraeder, the world's famous divine healer, who here goes Schraeder's people claim all the way up from the wharf, where he landed yesterday afternoon from Buffalo, and he had been seen 10 minutes in the house before the halt and blind knight before him to be cured.

When Schraeder was making his wonderful cures in Denver, Col., 3,000 Torontonians sent handkerchiefs to him to be

## SCHRAEDER, THE DIVINE HEALER.

blessed for various ills, and at the house of one of these, Mrs. Margaret Hughes, 68 Beverly street, he is now stopping. He is a tall, dark man, with large features and a very large head, covered with red hair that falls copiously below the shoulders. The hair is parted in the middle, and the face, which is long, is full bearded. For clothes Schraeder had a black robe, something like a priest's, in front dangled a six-inch crucifix, and on either side, attached to the robe, were British and American flags.

## Why He Comes to Toronto.

"I am here to show that the days of miracles are not over," was the quiet answer to a question. The voice was musical, and there was not the slightest egotism or self-inflation in it. "If you have faith you shall move mountains," said Christ, and some of that power is given to me.

## When His Power Came to Him.

"When did your power come to you, Mr. Schraeder?" "When I was 13 years old, God told me to go to healing. I was then living with my parents at Allensville, Wisconsin, and I went out into the world, and stood on a log, calling out to the people that went by. A crowd quickly gathered and I held them spellbound. I gave my blessing to a woman in the crowd, and I cured her rheumatism, and, ever since then I have gone on with my work. I have spoken to crowds of 40,000 people at a time, and touched 5,000 people in a day."

## It Was the Power of God.

"Don't you think it was hypnotism you exerted?" he said, simply. "No; it was the power of God. How could hypnotism cure a blind or deaf man?"

## You spoke about being told to go to heal. How were you told?

"It is so soft and kindly, like a child's, and I obey it at once. The voice told me to go to heal, and I have accordingly left off all else."

## Schraeder opened his big eyes wide when it was suggested that perhaps the

whisper came from spirits. "The voice was too kind," he replied, "and besides, I don't think spirits can talk."

## Physical Effect of His Work.

"Doesn't the sympathy and healing weaken you, Mr. Schraeder?" "Yes, it does," he said, simply. "For this reason three times in late years I have disappeared in the mountains, and on each occasion fasted 40 days and 40 nights. I rested me to get away from the people, and, although I drank nothing but water, I gained 40 pounds."

## Asked of his own domestic life, Schraeder said that his mother resided in

Minnesota. His family were Lutherans in creed. In September, the proposed excursion to Duluth. The number who signified their willingness to go was small, and he was disappointed. It was not until he had been a representative gathering.

## Severe Storm in Britain.

London, July 30.—The northeast coast of this country was visited by a great storm. The fishing fleets have had a narrow escape, being obliged to relinquish what they were carrying on board. The fishermen have been delayed by the force of the winds which have caused considerable damage inland, the crops being flattened.

## There were some minor fatal wrecks in the North Sea.

London, July 30.—Nelson, Butler, and Stanger, will go to Napanee Monday to take down the evidence at the preliminary investigation into the bank robbery case. This will throw Chief Adams out of a job, but will expedite the trial. B. B. Johnston, Q. C., will prosecute. E. F. B. Johnston, Q. C., will be present; he is at the court.

## Cornwall and Ottawa Linked.

Cornwall, July 30.—The Ottawa & New York Railway was opened for traffic yesterday. The first train left Cornwall at 7:45. A train from Ottawa also left that place at 6:30 a.m. Two trains daily will run between the two cities.

## The Preliminary Cabinet Meeting.

Toronto, July 30.—A Cabinet meeting was held yesterday morning in the Attorney General's office and business of the coming session was discussed. It is probable that most of the Ministers will go out of town Saturday and Sunday to get a breath of fresh air before the session and make themselves solid on precedent, constitutions and law.
